Guidelines for Safe Handling of Powders and Bulk Solids CCPS (Center for Chemical Process Safety), 2010-08-13 Powders and bulk solids handled widely in the chemical pharmaceutical agriculture smelting and other industries present unique fire explosion and toxicity hazards Indeed substances which are practically inert in consolidated form may become quite hazardous when converted to powders and granules The U S Chemical Safety and Hazard Investigation Board is currently investigating dust explosions that occurred in 2003 at WestPharma CTA Acoustics and Hayes Lemmerz and is likely to recommend that companies that handle powders or whose operations produce dust pay more attention to understanding the hazards that may exist at their facility This new CCPS guidelines book will discuss the types of hazards that can occur in a wide range of process equipment and with a wide range of substances and will present measures to address these hazards

A Guide to Leading and Managing Indiana School Facilities Tom Dykiel, Charles Hobbs, William E. Roberson, 2009-08 When school buildings are aging a decision must be made as to whether to continue to maintain the existing building renovate building or build new Very seldom is extending the existing buildings life over building a new building If renovation costs exceed 50% of the cost of new construction it is better to build instead of renovating The taxpayers in your community will have much to say on whether to renovate or build new Much emphasis should be given to taxpayer input before the school board makes a final decision School administrators are responsible to the community for maintaining school buildings and they owe an explanation to the community of what has been done to protect existing school buildings This book is developed to help aspiring teachers who want to become principals business managers or

superintendents that existing buildings need to be properly maintained and functional and can continue to serve the public for many years to come **The Complete Idiot's Guide to Green Building and Remodeling** John Barrows, Lisa

Iannucci, 2009-01-06 It's easy building green This guide helps environmentally conscious people make real world decisions about building or remodeling a home Readers will find information on how to save money by going green when building or remodeling how to find the right green integrated system design how to choose heating and cooling equipment and how to save money on water Focuses on the design integration of green materials Residential and commercial green building will grow from 2% of the U S construction market in 2005 to as much as 10% in 2010 NAHB More than 80 regional and local green building programs are in place in the U S and more are being promoted in the private sector The Ultimate Guide to
