Echoes in the Classroom: Colonial Shadows in India's Modern Education KHRITISH SWARGIARY,2025-05-16 The roots of any education system lie deep within the soil of its history In India these roots are entangled with the legacies of colonial rule which have left behind not only administrative and linguistic frameworks but also epistemological frameworks that is ideas about what counts as knowledge how it is taught and to whom This book Echoes in the Classroom Colonial Shadows in India s Modern Education is an outcome of a long standing inquiry into how British colonialism continues to shape inform and sometimes distort the contours of education in postcolonial India As a student I often encountered a curriculum that seemed strangely distant from the world I inhabited both historically and culturally As a teacher and later as a researcher I began to see that this was not a matter of oversight but of design The colonial project after all aimed not merely to govern bodies but to govern minds Education was never neutral it was and continues to be a potent tool of social ordering control and stratification In writing this book I have drawn upon a diverse range of sources from historical records and education policy documents to contemporary interviews with teachers students activists and policy makers I have explored how English language dominance bureaucratic models of schooling colonial era hierarchies of knowledge and even the architecture of elite schools reflect a persistent colonial hangover But more importantly I have tried to trace how these legacies operate today in the age of digital learning artificial intelligence and globalized education platforms This work is not an attempt to romanticize pre colonial forms of knowledge nor is it a rejection of modernity or technological progress Rather it is a call to interrogate the

unexamined assumptions that underlie our systems of teaching and learning It is a call to ask difficult but necessary questions Why do we continue to valorize Western knowledge systems while marginalizing indigenous ones Why is English still the ticket to upward mobility in a country as linguistically rich as India Why do our school structures still reflect the logic of order discipline and hierarchy inherited from colonial rule I have organized this book in four parts The first traces the origins of British educational policy in India laying bare its ideological underpinnings The second examines the continuities that persisted after independence from Macaulay to NEP 2020 The third turns a critical eye toward the rise of EdTech and the algorithmic reproduction of inequality in digital classrooms The final section imagines possibilities for decolonizing education from curriculum to pedagogy from language to platform This book is written for a wide audience scholars educators students activists and anyone concerned with the future of education in India It is my hope that it provokes thought raises questions and perhaps opens space for transformation The colonial classroom has not yet been dismantled but through awareness critique and collective action we may yet reimagine it Khritish Swargiary 2025 *Globalization Development and Social Justice* Ann El Khoury, 2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning This book makes an important contribution to debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about globalization and development strategies It will be of interest to students and scholars of international relations globalization social movement studies political and economic geography sociology anthropology and development studies *Social Movements in Contemporary India* Krishna Menon, Ranjana Subberwal, 2024-11-01 This book delves into the concept and definition of social movements from different perspectives with relevance to India It offers critical insight into the fundamental and ongoing debates and treatises around the struggle for rights and welfare The book covers discussions on a wide range of movements varying in locus and spatial spread from movements that highlight environmental issues to those that articulate the voices of women Dalits the queer community persons with disabilities and farmers It explores the origins of people s movements what a collective is and how communities mobilize and organize The authors also provide a history of the key social movements in India examining the

social political and cultural contexts in which they were born and continue being relevant in contemporary India This revised and updated edition is an essential volume for students and researchers of social movement studies sociology political science and history protest movements sociological theory the history of sociological thought contemporary social theory social policy and international and globalization studies **Keesing's Contemporary Archives**, 1959 West Bengal under the Left Rakhahari Chatterji, Partha Basu, 2019-06-26 This book makes a critical analysis of West Bengal's Left Front regime 1977-2011 and explores the causes of its collapse under three segments inquiry into issues of political management evaluation of various policy initiatives and examination of development in civil society Please note Taylor Francis does not sell or distribute the Hardback in South Asia **Knowledge Systems of Societies for Adaptation and Mitigation of Impacts of Climate Change** Sunil Nautiyal, K.S.
