

Research Paper Abstract Example APA

Background

Social media have been indispensable communication channels for sharing and consuming news. The evolution of social media platforms has boosted digital journalism practice globally.

Objective

This study intends to examine factors influencing social media engagement to practice citizen journalism by adopting a prominent technology adoption model unified theory of acceptance and use of technology (UTAUT).

Methods

The researchers designed online survey questionnaires and distributed them among university students through Google Forms to collect data, where 301 valid samples were collected. The structural equation modelling (SEM- PLS) approach was utilized to ascertain the presented model based on the empirical data found from respondents.

Findings

The findings show performance expectancy, effort expectancy, and social influence significantly affect social media users' practice of citizen journalism. The results indicate that social media engagement significantly influenced citizen journalism practice.

Significance

This study is of great significance to scholars and practitioners, especially digital journalists, and content creator emphasized limitations and suggestions for future research.

Conducting Undergraduate Research in Education Ruth J. Palmer, Deborah L. Thompson, 2022-02-17

This book offers a student-focused guide to conducting undergraduate research in education and education-related programs, engaging students in the process of learning through research and supporting them to navigate their multidimensional academic programs. Written for undergraduate students in teacher education programs, the book features a range of leading voices in the field who offer a step-by-step guide to all elements of the research process from conducting a literature review and choosing a research topic to collecting data and building a research community with peers and mentors. Ultimately, volume editors Ruth J. Palmer and Deborah L. Thompson help model the competencies that students need to succeed, including complex thinking, strategic design modeling, and persistent iterative practice while demonstrating how conducting research can help students develop as deep thinkers, courageous researchers, and active participants in their communities of practice. Offering strategic approaches, support, and guidance, this book demonstrates the wider importance of undergraduate research in informing educational practice and policy as well as understanding schools beyond the classroom context, encouraging active engagement and continued learning progression.
