A Theory of Action Identification Robin R. Vallacher, Daniel M. Wegner, 2014-04-04 First published in 1985 A person may be caught in the midst of a patently ridiculous act interrupted in a moment of apparent confusion or even aroused from sleep and yet respond to a query of What are you doing with remarkable ease The answer that is given is an identification of action It is the central idea of this book that such action identifications perform pivotal functions in a broad range of psychological and social processes

Our Frontier Is the World Mischa Honeck, 2018-05-15 Mischa Honeck's *Our Frontier Is the World* is a provocative account of how the Boy Scouts echoed and enabled American global expansion in the twentieth century The Boy Scouts of America BSA has long been a standard bearer for national identity The core values of the organization have since its founding in 1910 shaped what it means to be an American boy and man As Honeck shows those masculine values had implications that extended far beyond the borders of the United States Writing the global back into the history of one of the country's largest youth organizations *Our Frontier Is the World* details how the BSA operated as a vehicle of empire from the Progressive Era up to the countercultural moment of the 1960s American boys and men wearing the Scout uniform never simply hiked local trails to citizenship they forged ties with their international peers camped in foreign lands and started troops on overseas military bases Scouts traveled to Africa and even sailed to icy Antarctica hoisting the American flag and standing as models of loyalty obedience and bravery Through scouting America's complex engagements with the world were presented as honorable and playful masculine adventures abroad Innocent fun and earnest commitment to doing a good turn of course were not the whole story Honeck argues that the good natured Boy Scout was a ready means for soft power abroad and gentle influence where American values and democratic capitalism were at stake In other instances the BSA provided a pleasant cover for imperial interventions that required coercion and violence At Scouting's global frontiers the stern expression of empire often lurked behind the smile of a boy

Why We Whisper Jim DeMint, David J. Woodard, 2007-12-06 Americans today live in the greatest nation the world has ever known Never before has a country been the producer and beneficiary of so much wealth and freedom But with great success comes even greater responsibility Part of the American legacy is to pass our values to our posterity as well as to future generations in other nations To meet this responsibility the next generation must understand what made America great what is working what is not working and how to improve all the ideas that contributed to past success No factor is more important in this task than our freedom of speech

This right is both a means and an end to improving and strengthening the nation Why We Whisper is about free speech in America but not freedom of speech as it is often defined today It is not the freedom to practice destructive behavior or to produce obscene material This book is about freedom of speech as it was intended by the visionaries who designed the Constitution and the Bill of Rights The First Amendment empowers Americans to join the public and political debate with their ideas and values including those traditional ideas and values that have made America great This fundamental freedom is under attack and unless principled Americans fight back our grandchildren and future generations around the world will receive a greatly diminished inheritance United States Senator Jim DeMint and Professor David Woodard compellingly demonstrate that through court rulings bureaucratic pronouncements and well intentioned but ultimately unhelpful laws secular values have allied with government authority to dismantle the ideals of a moral and decent nation A country once confident of its values and optimistic about its future is now pessimistic nervous and confused Traditional American institutions like the Boy Scouts churches businesses college campuses and public schools are routinely targeted for attack and government regulation As a result morally responsible patriotic Americans are **Building Character in the**
