

The background of the entire image is a photograph of a dirt path that curves through a forest. The path is light brown and appears to be made of dirt and small stones. On either side of the path, there are large, mature trees with thick trunks and dense green foliage. The lighting suggests a bright day, with sunlight filtering through the leaves. The overall atmosphere is peaceful and natural.

The Nurse Workforce in the Eastern Caribbean Carmen Carpio,Danielle Fuller-Wimbush,2016-06-24 The health workforce must be able to cope with shifts in the pattern of causes of death and disease that are being seen worldwide particularly with the rise in noncommunicable diseases NCDs This requires health personnel to have a set of skills and competencies that can adapt to meet the population s growing and changing health needs This report examines the status of the nurse workforce in the Eastern Caribbean assessing how best to strengthen its capacity to respond to the growing burden of NCDs The report is based on four Eastern Caribbean case studies conducted in Dominica Grenada St Lucia and St Vincent and the Grenadines The case studies showed that although overall nurse staffing levels seem to be sufficient across the four countries in terms of numbers there are nurse shortages at hospitals and health clinics as well as in the availability of specialists Better management of the nurse workforce is needed to ensure adequate coverage at the hospitals and clinics is maintained In terms of specialists while the quality of education is generally reported to be good there are barriers to accessing specialized training which include the high cost of seeking specialized training due to non existing or very limited local options and the lack of built in incentives for completing additional education To help address the capacity constraints faced by the nurse workforce in the Eastern Caribbean to respond to NCDs the report generated knowledge in support of two critical areas i provide an understanding of the educational and training opportunities available to nurses to strengthen their capacity to meet the NCD challenges and ii assess whether there is a supportive policy environment in place for nurses to play a role in addressing NCDs As part of the study a toolkit was developed which can be used to strengthen the capacity for HRH planning and management with respect to NCDs

Resilient Building Retrofits Sarah Sayce,Sara Wilkinson,Gillian Armstrong,Samantha Organ,2022-09-20 This radical book aims to inject new insight and urgency into the discourse on the retrofitting of commercial and residential buildings in the face of the climate emergency It is about the why how and who should take the lead in revolutionising buildings in the face of serious climate and social change Buildings contribute very significantly to the output of carbon particularly in developed countries where the stock is old but it is neither feasible nor desirable to demolish them all and start again If existing buildings cannot in be replaced in the short term by new zero carbon stock retrofitting and adaptation

of the existing building stock is critical and urgent This book explains why and how the improvement of buildings requires a complex holistic approach that brings all stakeholders together with respect and understanding Yet to do this against a limited time frame is challenging The book analyses what must be done explores how it could be achieved and sets out a manifesto for action by all those engaged from policy makers to educationalists designers constructors investors funders and occupiers By bringing together authors from across the built environment disciplines the book stimulates debate within policy practice and education circles which must lead to action if we are to avoid catastrophe This is a unique addition to the literature on the sustainability of existing buildings and their retrofitting for the benefit of all *Passport to Legal*

Understanding ,1990 **Tourism and Sustainable Development Goals** Jarkko Saarinen,2020-06-29 This comprehensive volume comprises some of the best scholarship on sustainable tourism in recent years demonstrating the rich body of past research that provides a fertile and critical ground for studies on the Sustainable Development Goals SDGs by tourism geographers and other social scientists in the future Since the turn of the 1990s many international development and policy making organisations have perceived the tourism industry with its local and regional connections as a high potential tool for putting sustainable development into practice The capacity of tourism to work for sustainable development was highlighted in relation to the United Nations SDGs which were adopted in 2015 The SDGs define the agenda for global development to 2030 by addressing pertinent challenges such as poverty inequality climate change environmental degradation and peace and justice Tourism geographers and allied disciplines have held strong and long term interest in sustainability issues and their chapters in this collection contribute significantly to this emerging and highly policy relevant research field This book was originally published as an online special issue of the journal *Tourism Geographies* **Patient-Centered Care in**
