multidimensional concept which emphasizes the self perceptions of an individual s current state of mind which is affected in
a complex way by the person s physical health psychological state personal beliefs social relationships and their relationship
to salient features of their environment On the other hand demographic data suggests an increased need for workers
worldwide and a rapid aging trend in the active workforce as well as in general This trend of workforce deficit and population
aging will be even more prominent in the future Therefore in order to have and sustain a healthy motivated and productive
