## **Performing The Sentence Research And Teaching In Performative Fine Arts:**

**Performing the Sentence** Carola Dertnig, Felicitas Thun-Hohenstein, 2014-09-01 Performing the Sentence brings into dialogue the ways that performative thinking has developed in different national and institutional contexts within different disciplines in the arts and the conditions under which it has developed in experimental art schools This anthology is a collection of twenty one essays and conversations that weave in and out of the two key areas of research and teaching within performative fine arts

**The Methuen Drama Companion to Performance Art** Bertie Ferdman, Jovana Stokic, 2020-02-20 The Methuen Drama Companion to Performance Art offers a comprehensive guide to the major issues and interdisciplinary debates concerning performance in art contexts that have developed over the last decade It understands performance art as an institutional cultural and economic phenomenon rather than as a label or object Following the ever increasing institutionalization and mainstreaming of performance the book's chapters identify a marked change in the economies and labor practices surrounding performance art and explore how this development is reflective of capitalist approaches to art and event production Embracing what we perceive to be the oxymoronic status of performance art where it is simultaneously precarious and highly profitable the essays in this book map the myriad gestures and radical possibilities of this extreme contradiction This Companion adopts an interdisciplinary perspective to present performance art's legacies and its current practices It brings together specially commissioned essays from leading innovative scholars from a wide range of approaches including art history visual and performance studies dance and theatre scholarship in order to provide a comprehensive and multifocal overview of the emerging research trends and methodologies devoted to performance art

**Dialogues Between Artistic Research and Science and Technology Studies** Henk Borgdorff, Peter Peters, Trevor Pinch, 2019-10-29 This edited volume maps dialogues between science and technology studies research on the arts and the emerging field of artistic research The main themes in the book are an advanced understanding of discursivity and reasoning in arts based research the methodological relevance of material practices and things and innovative ways of connecting staging and publishing research in art and academia This book touches on topics including studies of artistic practices reflexive practitioners at the boundaries between the arts science and technology non propositional forms of reasoning unconventional arts based research methods and enhanced modes of presentation and publication

**Performance Studies in Canada** Laura Levin, Marlis Schweitzer, 2017-06-01 Since its inception as an institutionalized discipline in the United States during the 1980s performance studies has focused on the interdisciplinary analysis of a broad spectrum of cultural behaviours including theatre dance folklore popular entertainments performance art protests cultural rituals and the performance of self in everyday life Performance Studies in Canada brings together a diverse group of scholars to explore the national emergence of performance studies as a field in Canada To date no systematic attempts have been made to consider how this methodology is being taught applied and rethought in Canadian contexts and Canadian performance studies scholarship remains largely

unacknowledged within international discussions about the discipline This collection fills this gap by identifying multiple origins of performance studies scholarship in the country and highlighting significant works of performance theory and history that are rooted in Canadian culture Essays illustrate how specific institutional conditions and cultural investments Indigenous francophone multicultural and more produce alternative articulations of performance and reveal national identity as a performative construct A state of the art work on the state of the field Performance Studies in Canada foregrounds national and global performance knowledge to invigorate the discipline around the world

**The Minjian Avant-Garde** Chang Tan, 2024-02-15 The Minjian Avant Garde studies how experimental artists in China mixed with brought changes to and let themselves be transformed by minjian the volatile and diverse public of the post Mao era Departing from the usual emphasis on art institutions global markets or artists communities Chang Tan proposes a new analytical framework in the theories of socially engaged art that stresses the critical agency of participants the affective functions of objects and the versatility of the artists in diverse sociopolitical spheres Drawing from hitherto untapped archival materials and interviews with the artists Tan challenges the views of Chinese artists as either dissidents or conformists to the regime and sees them as navigators and negotiators among diverse political discourses and interests She questions the fetishization of marginalized communities among practitioners of progressive art and politics arguing that the members of minjian are often more complex defiant and savvy than the elites would assume The Minjian Avant Garde critically assesses the rise of populism in both art and politics and show that minjian could constitute either a democratizing or a coercive force This book was published with generous support from the George Dewey and Mary J Krumrine Endowment

**Performance Making and the Archive** Ashutosh Potdar, Sharmistha Saha, 2022-11-30 This book investigates theories and practices shaped by a performance s relationship to the archive The contributions in the volume examine how the changing nature of performance practices has made it imperative to understand how the archive and archival practices could add to the performance work They explore a variety of themes including artistic engagement with the archive in both conceptual and material terms physical virtual and digital forms publicly and privately collected oral written and digital ways or organized and unorganized collections Finally the volume examines how archives are modelled on existing structure and the ways in which they can be brought into discourses and practices of performance making through engagement and contestation A novel approach to performance theory this volume will be of great interest to scholars and researchers of performance studies media and culture studies studies of technology and art as also literature and literary criticism

**Reactivations** Philip Auslander, 2018-05-01 Most people agree that witnessing a live performance is not the same as seeing it on screen however most of the performances we experience are in recorded forms Some aver that the recorded form of a performance necessarily distorts it or betrays it focusing on the relationship between the original event and its recorded versions By contrast Reactivations focuses on how the audience experiences the performance as opposed to its documentation How does a spectator access and experience a

performance from its documentation What is the value of performance documentation The book treats performance documentation as a specific discursive use of media that arose in the middle of the 20th century alongside such forms of performance as the Happening and that is different both discursively and as a practice from traditional theater and dance photography Philip Auslander explores the phenomenal relationship between the spectator who experiences the performance from the document and the document itself The document is not merely a secondary iteration of the original event but a vehicle that gives us meaningful access to the performance itself as an artistic work **Zoomland** Florentina

Armaselu, Andreas Fickers, 2023-12-31 Despite a variety of theoretical and practical undertakings there is no coherent understanding of the concept of scale in digital history and humanities and its potential is largely unexplored A clearer picture of the whole spectrum is needed from large to small distant to close global to local general to specific macro to micro and the in between levels The book addresses these issues and sketches out the territory of Zoomland at scale Four regions and sixteen chapters are conceptually and symbolically depicted through three perspectives bird s eye overhead and ground view The variable scale representation allows for exploratory paths covering areas such as theoretical and applicative reflections on scale combining a digital dimension with research in history media studies cultural heritage literature text analysis and map modelling creative use of scale in new digital forms of analysis data organisation interfaces and argumentative or artistic expressions Zoomland provides a systematic discussion on the epistemological dimensions hermeneutic methods empirical tools and aesthetic logic pertaining to scale and its innovative possibilities residing in humanities based approaches and digital technologies Enter the Zoomland game here or watch the teaser [Over and Over and Over Again](#)

Cristina Baldacci, Clio Nicastro, Arianna Sforzini, 2022-01-04 Over the last twenty years reenactment has been appropriated by both contemporary artistic production and art theoretical discourse becoming a distinctive strategy to engage with history and memory As a critical act of repetition which is never neutral in reactualizing the past it has established unconventional modes of historicization and narration Collecting work by artists scholars curators and museum administrators the volume investigates reenactment s potential for a re activation of layered temporal experiences and its value as an ongoing interpretative and political gesture performed in the present with an eye to the future Its contributions discuss the mobilization of archives in the struggle for inclusiveness and cultural revisionism the role of the body in the presentification and rehabilitation of past events and impermanent objects the question of authenticity and originality in artistic practice art history as well as in museum collections and conservation practices **De la crítica institucional a la**
