The Personal Is Political Christine Salkin Davis, Jonathan L. Crane, 2020-07-27 In the wake of Donald J Trump s unprecedented victory and his administration s multi pronged attacks on an array of vulnerable populations a diverse collection of scholars was asked to document the ways in which marginalized peoples have experienced the first years of Trump mayhem The essays in this volume ask us to think through tough narratives of exclusion exile and pain The challenge in this book is to represent the unrepresentable to document in chilling detail how Trump his allies in government and his unshakeable base have weaponized the culture war and threatened the ideals of the Republic This book invites us to experience the scarifying perspective of the marginalized Other to remember to honor all our most human stories that woven together make up the collective us the collective U S The editors also hope this collection suggests a way forward a way to defeat American nativism and a way to end the war on those of us who are on this sad day our nation s public enemies

"The Personal is Political" Deborah Lynn Siegel, 2001 *Telling Histories* Susana Onega Jaén, 1995 Team research project undertaken at Zaragoza University designed to explore the origins and development of contemporary historiographic metafiction in Britain Bananas, Beaches and Bases Cynthia Enloe, 2000 New analysis of international politics *The Trajectory of Change* Michael Albert, 2002 The Trajectory of Change charts a course for the growing international movement against corporate globalization Michael Albert a longtime activist and analyst of popular struggles challenges the movement to reach out to ordinary people by demonstrating how their lives are negatively affected by creeping corporatism Albert connects issues confronting working people in the United States such as access to health care workplace rights and safety declining wages and unemployment to a critique of institutions that currently dominate the global economy And he offers a compelling argument for a strategy based on civil disobedience and protest rather than individual acts of vandalism or violence Albert also suggests reasons for the recent revival of political protest from the Battle in Seattle to the demonstrations in Quebec Canada and Genoa Italy At the same time he argues that it isn t enough for protesters to stand against global economic injustice To be effective Albert argues that we need to develop a clear vision of what we stand for He makes the case for collectively creating a vision of a participatory democratic and egalitarian society

Michael Albert is a founder of Z Magazine and Z Net a web site and electronic commentary service based in Woods Hole Massachusetts He also co founded South End Press He is the author of Looking Forward with Robert Hahnel and Stop the Killing Trade among other books on economics and social change *Talking Back* Bell Hooks,1989 bell hooks writes about the meaning of feminist consciousness in daily life and about self recovery about overcoming white and male supremacy and about intimate relationships exploring the point where the public and private meet **"Are You Calling Me a Racist?"**

Sarita Srivastava,2024-03-19 Shows why diversity workshops fail and offers concrete solutions for a path forward Despite decades of anti racism workshops and diversity policies in corporations schools and nonprofit organizations racial conflict has only increased in recent years Are You Calling Me a Racist reveals why these efforts have failed to effectively challenge racism and offers a new way forward Drawing from her own experience as an educator and activist as well as extensive interviews and analyses of contemporary events Sarita Srivastava shows that racial encounters among well meaning people are ironically hindered by the emotional investment they have in being seen as good people Diversity workshops devote energy to defending recuperating educating and inwardly reflecting with limited results and these exercises often make things worse These Feel Good politics of race Srivastava explains train our focus on the therapeutic and educational rather than on concrete practices that could move us towards true racial equity In this type of approach to diversity training people are more concerned about being called a racist than they are about changing racist behavior Are You Calling Me a Racist is a much needed challenge to the status quo of diversity training and will serve as a valuable resource for anyone dedicated to dismantling racism in their communities educational institutions public or private organizations and social movements

The Visual Is Political Na'ama Klorman-Eraqi,2019-07-19 The Visual is Political examines the growth of feminist photography as it unfolded in Britain during the 1970s and 1980s This period in Britain was marked by instability following the collapse of the welfare state massive unemployment race riots and workers strikes However this was also a time in which various forms of social activism emerged or solidified including the Women s Movement whose members increasingly turned to photography as a tool for their political activism Rather than focusing on the aesthetic quality of the images produced Klorman Eraqi looks at the application of feminist theory photojournalism advertising photo montage punk subculture and aesthetics and politicized street activity to emphasize the statement and challenge that the photographic language of these works posed She shows both the utilitarian uses of photography in activism but also how these same photographers went on to be accepted or co opted into the mainstream art spaces little by little sometimes with great controversy The Visual is Political highlights the relevance and impact of an earlier contentious creative and politicized moment of feminism and photography as art and activism **Issues in Political Theory** Catriona McKinnon,2015 This political theory textbook invites students to apply the concepts they encounter to real world politics Each chapter includes a 2 000 word case study to highlight the theories that have been discussed Liberalism and the Limits of Power J. Williams,2005-11-26 This book

provides the first critical assessment of important recent developments in Anglo American liberal theorizing about limited government Following a comparative study of canonical liberal philosophers Hayek and Rawls the book reveals a new direction for conceptualizing limited government in the twenty first century highlighting the central role that democratic politics rather than philosophical principles should play in determining the uses and limits of state power in a liberal regime Williams draws on recent scholarship in the field of democratic theory and cultural studies in arguing for a shift in the ways liberals approach the study of politics

American Road Narratives Ann Bringham, 2015-06-29 The freedom to go anywhere and become anyone has profoundly shaped our national psyche Transforming our sense of place and identity whether in terms of social and economic status or race and ethnicity or gender and sexuality American mobility is perhaps nowhere more vividly captured than in the image of the open road From pioneer trails to the latest car commercial the road looms large as a form of expansiveness and opportunity Too often it is the celebratory idea of the road as a free floating zone moving the traveler beyond the typical concerns of space and time that dominates the discussion Rather than thinking of mobility as an escape from cultural tensions however Ann Bringham proposes that we understand mobility as a mode of engagement with them She explores the genre of road narratives to show how mobility both thrives on and attempts to manage shifting conflicts about space and

society in the United States From the earliest transcontinental automobile narratives from the 1910s through classics like Jack Kerouac's *On the Road* and the film *Thelma Louise* up to post 9/11 narratives Brigham traces the ways in which mobility has been imagined created and interrogated over the past century and shows how mobility promises and threatens to incorporate the outsider and to blur boundaries Bringing together textual and cultural analysis theories of spatiality and sociohistorical frameworks this book offers an invigoratingly different view of mobility and a new understanding of the road narrative's importance in American culture Choice Outstanding Academic Title from American Library Association

Public Affairs Paul Apostolidis, Juliet A. Williams, 2004-01-14 Collection of essays analyzing political sex scandals and U.S. political culture from a variety of theoretical angles including feminism cultural studies Marxist critical theory queer theory and critical race theory

A Promise and a Way of Life Becky W. Thompson, 2001 Beginning with the diverse catalysts that started these activists on their journeys this book demonstrates the contributions and limitations of white antiracism in key social justice movements

Marwick, 2023-05-30 A compelling firsthand investigation of how social media and big data have amplified the close relationship between privacy and inequality Online privacy is under constant attack by social media and big data technologies But we cannot rely on individual actions to remedy this it is a matter of social justice Alice E Marwick offers a new way of understanding how privacy is jeopardized particularly for marginalized and disadvantaged communities including immigrants the poor people of color LGBTQ populations and victims of online harassment Marwick shows that few resources or regulations for preventing personal information from spreading on the internet Through a new theory of networked privacy she reveals how current legal and technological frameworks are woefully inadequate in addressing issues of privacy often by design Drawing from interviews and focus groups encompassing a diverse group of Americans Marwick shows that even heavy social media users care deeply about privacy and engage in extensive privacy work to protect it But people are up against the violation machine of the modern internet Safeguarding privacy must happen at the collective level
