Sharing the Adventure with the Student National Research Council, Board on Science Education, Division on Engineering and Physical Sciences, Space Studies Board, Planning Committee on Sharing the Adventure with the Student: Exploring the Intersections of NASA Space Science and Education: A Workshop, 2015-06-17 On December 23 2014 the Space Studies Board and the Board on Science Education of the National Research Council held a workshop on the NASA Science Mission Directorate SMD education program *Sharing the Adventure with the Student* The workshop brought together representatives of the space science and science education communities to discuss maximizing the effectiveness of the transfer of knowledge from the scientists supported by NASA's SMD to K12 students directly and to teachers and informal educators The workshop focused not only on the effectiveness of recent models for transferring science content and scientific practices to students but also served as a venue for dialogue between education specialists education staff from NASA and other agencies space scientists and engineers and science content generators Workshop participants reviewed case studies of scientists or engineers who were able to successfully translate their research results and research experiences into formal and informal student science learning Education specialists shared how science can be translated to education materials and directly to students and teachers shared their experiences of space science in their classrooms *Sharing the Adventure with the Student* is the summary of the presentation and discussions of the workshop

Excellence Gaps in Education Jonathan A. Plucker, Scott J. Peters, 2020-01-15 2017 Texas Association for Gifted and Talented Legacy Scholar Book Award 2017 National Association of Gifted Children Scholar Book of the Year Award In *Excellence Gaps in Education* Jonathan A. Plucker and Scott J. Peters shine a spotlight on excellence gaps the achievement gaps among subgroups of students performing at the highest levels of achievement Much of the focus of recent education reform has been on closing gaps in achievement between students from different racial ethnic or socioeconomic backgrounds by bringing all students up to minimum levels of proficiency Yet issues related to excellence gaps have been largely absent from discussions about how to improve our schools and communities Plucker and Peters argue that these significant gaps reflect the existence of a persistent talent underclass in the United States among African American Hispanic Native American and poor students resulting in an incalculable loss of potential among our fastest growing populations Drawing on the latest research and a wide range of national and international data the authors outline the scope of the problem and make the case that excellence gaps should be targeted for elimination They identify promising interventions for talent development already underway in schools and provide a detailed review of potential strategies including universal screening flexible grouping targeted programs and psychosocial interventions *Excellence Gaps in Education* has the potential for changing our national conversation about equity and excellence and bringing fresh attention to the needs of high potential students from underrepresented backgrounds

Integrated Life-Cycle and Risk Assessment for Industrial Processes and Products Guido Sonnemann, Michael

Tsang, Marta Schuhmacher, 2018-10-10 Life cycle assessment is a methodology used to evaluate the environmental impacts of a product process or service during its life cycle and risk assessment is a tool to evaluate potential hazards to human health and the environment introduced by pollutant emissions The United Nations Sustainable Development Goals call for among other objectives responsible consumption and production by decoupling environmental resource use and environmental impacts from economic growth and human well being Life cycle assessment and risk assessment are both analytical system approaches that allow scientists and other decision makers to address these issues and objectives according to the current understanding of environmental mechanisms This book is the first attempt to illustrate the existing interfaces between life cycle assessment and risk assessment and to indicate options for further integration of both tools The second edition Focuses on sustainability Considers new developments in life cycle assessment and environmental risk assessment over the last ten years at the international level Introduces broader concepts and discussions on integrative versus the complementary use of life cycle and risk assessments Extends the scope of integrated life cycle and risk assessments to critical raw materials Includes more case studies and discusses engineered nanomaterials Featuring contributions from leading experts Integrated Life Cycle and Risk Assessment for Industrial Processes and Products is a great reference for graduate students and professionals in environmental management and intends to catalyze communication between life cycle assessment and risk assessment experts and scientists in academia industry and governmental agencies The practical format of the book illustrated with flowcharts examples exercises and concrete applications makes it a useful manual for analyzing situations and making decisions

Debating Terrorism and Counterterrorism Stuart Gottlieb, 2025-04-15 This innovative text now in its third edition focuses students on engaging and informative debates on the most crucial issues in the field of terrorism and counterterrorism Leading scholars practitioners and think tank experts provide original essays that juxtapose pro and con arguments on hotly contested topics of clear importance to the understanding of the past present and future of terrorism and counterterrorism These include disagreements over the evolving nature of terrorist organizations whether terrorism is ever justified the role of poverty as a root cause of terrorism whether militant jihadism or far right extremism poses the greater terror threat the likelihood of nuclear terrorism whether military or non military solutions should lead counterterrorism efforts the utility of international organizations in helping to combat terrorism and whether trade offs with civil liberties are necessary to protect national security in an age of mass casualty terrorism The book's editor frames all twelve debate chapters six each for terrorism and counterterrorism with incisive headnotes providing historical context and highlighting the critical stakes involved for each topic By the book's end readers will have a sophisticated grasp of the terrorism challenges conundrums and counter options being considered and contested in academic departments and policy circles in the United States and around the world

Armed Conflict, Women and Climate Change Jody M. Prescott, 2018-11-21 The gender differentiated and more severe impacts of armed conflict upon women and girls are well

recognised by the international community as demonstrated by UN Security Council Resolution UNSCR 1325 on Women Peace and Security and subsequent resolutions Similarly the development community has identified gender differentiated impacts upon women and girls as a result of the effects of climate change Current research and analysis has reached no consensus as to any causal relationship between climate change and armed conflict but certain studies suggest an indirect linkage between climate change effects such as food insecurity and armed conflict Little research has been conducted on the possible compounding effects that armed conflict and climate change might have on at risk population groups such as women and girls Armed Conflict Women and Climate Change explores the intersection of these three areas and allows the reader to better understand how military organisations across the world need to be sensitive to these relationships to be most effective in civilian centric operations in situations of humanitarian relief peacekeeping and even armed conflict This book examines strategy and military doctrine from NATO the UK US and Australia and explores key issues such as displacement food and energy insecurity and male out migration as well as current efforts to incorporate gender considerations in military activities and operations This innovative book will be of great interest to students and scholars of international relations international development international security sustainability gender studies and law *Journal of Developmental Education* ,2015
