related to sustainability but IPS2 is expected to be the philosopher's stone for solving these issues. Following the pattern of conferences held in Cranfield in 2009, Linköping in 2010 and Braunschweig in 2011, the fourth International CIRP Conference on Industrial Product Service Systems held on November 8-9, 2012 in Tokyo will cover various aspects of IPS2. Topics planned for this year's conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries. IPS2 is still a relatively new field, so it is important to keep track of the entire context in order to promote more cross-sectional cooperation between multimodal fields and disciplines. The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas.
