Policing Shanghai, 1927-1937 Frederic E. Wakeman, 1995-01-01 Prewar Shanghai casinos brothels Green Gang racketeers narcotics syndicates gun runners underground Communist assassins Comintern secret agents Frederic Wakeman's masterful study of the most colorful and corrupt city in the world at the time provides a panoramic view of the confrontation and collaboration between the Nationalist secret police and the Shanghai underworld In detailing the life and politics of China's largest urban center during the Guomindang era Wakeman covers an array of topics the puritanical social controls implemented by the police the regional differences that surfaced among Shanghai's Chinese the influence of imperialism and Western trained officials Parts of this book read like a spy novel with secret police torture assassination and power struggles among the French International Settlement and Japanese consular police within Shanghai Chiang Kai shek wanted to prove that the Chinese could rule Shanghai and the country by themselves rather than be exploited and dominated by foreign powers His efforts to reclaim the crime ridden city failed partly because of the outbreak of war with Japan in 1937 but also because the Nationalist police force was itself corrupted by the city Wakeman's exhaustively researched study is a major contribution to the study of the Nationalist regime and to modern Chinese urban history It also shows that twentieth century China has not been characterized by discontinuity because autocratic government whether Nationalist or Communist has prevailed

of refugees from Nazi Germany in the 1930s has received far more attention from historians social scientists and demographers than many other migrations and persecutions in Europe However as a result of the overwhelming attention that has been given to the Holocaust within the historiography of Europe and the Second World War the issues surrounding the flight of people from Nazi Germany prior to 1939 have been seen as Vorgeschichte pre history Based on a comparative analysis of national case studies this volume deals with the challenges that the pre 1939 movement of refugees from Germany and Austria posed to the immigration controls in the countries of interwar Europe Publisher s description

Littell-Lamb,2023-11-15 The YWCA arrived in China as a cultural interloper in 1899 How did activist Christian Chinese women maintain their identity and social relevance through the tumultuous first half of the twentieth century The YWCA in China explores how the Young Women s Christian Association responded to the needs of Chinese women and society both before and after the 1949 revolution ushered in a communist state Western secretaries originally defined the Chinese YWCA movement but successive generations of Chinese leadership localized its Western defined organizational ethos Over time the Y became class conscious and progressive as Chinese women transformed it from a vehicle for moral and material uplift to an instrument for social action and an organizational citizen of China And after 1949 national YWCA leaders supported the Maoist regime because they believed the social goals of the YWCA aligned with Mao s revolutionary aims The YWCA in China is a fascinating investigation of the lives thinking and action of women whose varied forms of Christian and Chinese identity were buffeted by historical events that moulded their social philosophies **Historical Perspectives on Contemporary**

Urbanizing China in War and Peace Toby Lincoln, 2015-05-31 *Urbanizing China in War and Peace* rewrites the history of rural urban relations in the first half of the twentieth century by arguing that urbanization is a total societal transformation and as important a factor as revolution nationalism or modernity in the history of modern China Linking the global and the local in space and time China's urbanization was not only driven by industrial capitalism and the expansion of the state but also shaped how these forces influenced daily life in the city and the countryside Although the conflict that beset China after the Japanese invasion in 1937 affected the development of cities towns and villages it did not derail previous changes To truly understand how China has emerged as the world's largest urban society we must consider such continuities across the first half of the twentieth century during periods of war as well as peace The book focuses on Wuxi a city that lies a hundred miles to the west of Shanghai In the early twentieth century local industrialists were responsible for it quickly becoming the largest industrial city in China outside treaty ports They built factories roads and other infrastructure outside the old city walls and in surrounding towns and villages Chapters examine the county's transformation as recorded in guidebooks and travel magazines of the time and the role of the state in the early 1920s and into the Nanjing Decade when new administrative laws led to the continued expansion of the city under both municipal and county officials They explore the revival of the silk industry during the Japanese occupation and the industry's role in driving urbanization as well as efforts by Chinese leaders to carry out prewar development plans despite lockdowns and qingxiang clean the countryside campaigns In the midst of the barbed wire and watch towers plans to shape the built environment in Wuxi County and the region as a whole persisted and were carried out Ambitious and well researched *Urbanizing China in War and Peace* will appeal to scholars and students of Chinese urban history the Anti Japanese War of Resistance and the Republican period Its engagement with issues of urbanization in general will interest urban historians of other times and places

Feminism, Women's Agency, and Communication in Early Twentieth-Century China Qiliang He, 2018-06-14 *Feminism Women's Agency and Communication in Early Twentieth Century China* focuses on a sensational elopement in the Yangzi Delta in the late 1920s to explore how middle and lower

class members of society gained access to and appropriated otherwise alien and abstract enlightenment theories and idioms about love marriage and family. Via a network of communications that connected people of differing socioeconomic and educational backgrounds, non-elite women were empowered to display their new womanhood and thereby exercise their self-activating agency to mount resistance to China's patriarchal system. Qiliang He's text also investigates the proliferation of anti-feminist conservatism in legal practice, scholarly discourses, media, and popular culture in the early Nanjing Decade (1927-1937). Utilizing a framework of interdisciplinary scholarship, this book traverses various fields such as legal history, women's history, popular culture, media studies, and literary studies to explore urban discourse and communication in 1920s China.

The Oxford Illustrated History of Modern China Jeffrey N. Wasserstrom, 2016. This lavishly illustrated volume explores the history of China from the founding of the Qing Dynasty (1644-1912) through to the present day. Essential reading for anyone who wants to understand this rising superpower on the verge of what promises to be the Chinese century.

Britain in China Robert Bickers, 2017-03-01. This is a study of Britain's presence in China both at its peak and during its inter-war dissolution in the face of assertive Chinese nationalism and declining British diplomatic support. Using archival materials from China and records in Britain and the United States, the author paints a portrait of the traders, missionaries, businessmen, diplomats, and settlers who constituted Britain in China, challenging our understanding of British imperialism there. Bickers argues that the British presence in China was dominated by urban settlers whose primary allegiance lay not with any grand imperial design but with their own communities and precarious livelihoods. This brought them into conflict not only with the Chinese population but with the British imperial government. The book also analyzes the formation and maintenance of settler identities and then investigates how the British state and its allies brought an end to the reign of freelance settler imperialism on the China coast. At the same time, other British sectors, missionary and business, renegotiated their own relationship with their Chinese markets and the Chinese state and distanced themselves from the settler British.

White Russians, Red Peril Sheila Fitzpatrick, 2021-03-30. Over 20,000 ethnic Russians migrated to Australia after World War II, yet we know very little about their experiences. Some came via China, others from refugee camps in Europe. Many preferred to keep a low profile in Australia and some attempted to pass as Polish, West Ukrainian, or Yugoslavian. They had good reason to do so: to the Soviet Union, Australia's resettling of Russians amounted to the theft of its citizens, and undercover agents were deployed to persuade them to repatriate. Australia regarded the newcomers with wary suspicion even as it sought to build its population by opening its door to more immigrants. Making extensive use of newly discovered Russian language archives and drawing on a lifetime's study of Soviet history and politics, award-winning author Sheila Fitzpatrick examines the early years of a diverse and disunited Russian-Australian community and how Australian and Soviet intelligence agencies attempted to track and influence them. While anti-Communist White Russians dreamed a war of liberation would overthrow the Soviet regime, a dissident minority admired its achievements and thought of returning home.

Narcotic Culture Frank Dikötter, Lars Laamann, Zhou Xun, 2004-04-16 To this day the perception persists that China was a civilization defeated by imperialist Britain's most desirable trade commodity opium a drug that turned the Chinese into cadaverous addicts in the iron grip of dependence Britain in an effort to reverse the damage caused by opium addiction launched its own version of the war on drugs which lasted roughly sixty years from 1880 to World War II and the beginning of Chinese communism But as *Narcotic Culture* brilliantly shows the real scandal in Chinese history was not the expansion of the drug trade by Britain in the early nineteenth century but rather the failure of the British to grasp the consequences of prohibition In a stunning historical reversal Frank Dikötter, Lars Laamann and Zhou Xun tell this different story of the relationship between opium and the Chinese They reveal that opium actually had few harmful effects on either health or longevity in fact it was prepared and appreciated in highly complex rituals with inbuilt constraints preventing excessive use Opium was even used as a medicinal panacea in China before the availability of aspirin and penicillin But as a result of the British effort to eradicate opium the Chinese turned from the relatively benign use of that drug to heroin morphine cocaine and countless other psychoactive substances *Narcotic Culture* provides abundant evidence that the transition from a tolerated opium culture to a system of prohibition produced a cure that was far worse than the disease Delving into a history of drugs and their abuses *Narcotic Culture* is part revisionist history of imperial and twentieth century Britain and part sobering portrait of the dangers of prohibition

The Missing Girls and Women of China, Hong Kong and Taiwan
Hua-Lun Huang, 2014-01-10 In the past century tens of millions of women and girls have disappeared in China Hong Kong and Taiwan There are many reasons the women variously were sold as foreign spouses imprisoned for their political beliefs taken to night clubs or massage parlors to work as escorts provided as comfort women to soldiers or murdered by female corpse dealers and sold as ghost brides to families looking to give their deceased sons wives in the afterlife The youngest girls fell victim to infanticide the tragic result of a one child law in a male dominated society As a result of the gender imbalance these disappearances created countless young males now suffer from the marriage squeeze remaining single without families of their own This sociological study explores the institutional factors develops a typology for these populations and lays a foundation for the examination of lost populations in the future
