Roland Barthes Par Roland Barthes:

Roland Barthes by Roland Barthes Roland Barthes, 2010-10-12 First published in 1977 Roland Barthes by Roland Barthes is the great literary theorist's most original work a brilliant and playful text gracefully combining the personal and the theoretical to reveal Roland Barthes's tastes his childhood his education his passions and regrets Roland Barthes Por Roland Barthes ,1978 **Roland Barthes** ,1982 Roland Barthes Philip Thody, 1977-06-17 **Roland Barthes** Bernard Comment, 2013 Jacques Derrida voyait dans le souple le meilleur terme pour résumer Barthes Ce dernier n'a cessé de réviser toutes les images figées l'une de ses grandes questions ne fut-elle pas celle du stéréotype La variété de ses objets va de pair avec l'inventivité de ses approches d'un côté le structuralisme et une pensée architecturée de l'autre l'incident le trait le haïku le ravissement amoureux ou rotique Après 1975 le sémiologue s'avouera crivain invitant considérer son oeuvre comme une autobiographie **Handbook of Autobiography / Autofiction** Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e.g. the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers **Pierre Michon** Patrick Crowley, 2007 Pierre Michon is one of France's most significant contemporary writers Since the publication in 1984 of his first book Vies minuscules Michon's work has never ceased to evade generic classifications His work ingests books lives and thought and probes their complex interrelationship and those moments of convergence that transform an ordinary name into that of an Author or of an Artist The contents of Michon's work are well documented they are drawn from canonical novels chronicles archives and the biographies of artists lives and are worked into cross generic forms that revive names and make us rethink the uncertainty of literature Less has been written of his engagement with avant garde thought The legacy of French avant garde thinkers of the 1960s and 1970s in particular the work of Roland Barthes informs Michon's work Barthes's notions of the referent of intertextuality and of authorship for example are transposed reconfigured and sometimes contested within Michon's work In

this way Barthes's name the afterlife of his thought remains encrypted within Michon's prose This book situates and reads Michon's texts through the complex inscription and transformation of names drawn from the Creuse literature art and avant garde thought And it is within this matrix that Michon puts in play his own name and its uncertain relation to literature

Subject Matters Paul Gifford, Johnnie Gratton, 2000 What can we currently make of the subject Under the sway of structuralism and poststructuralism critical thinking took a distinctly negative turn effectively disqualifying any form of subjectivity as a reference point in discussions of textual or literary meaning Since the mid 1970s however throughout the human sciences human agency has been restored as both a methodological principle and an ethical value a phenomenon broadly designated as the return of the subject Yet the returning subject bears the traces of its problematization The present collection of essays explores the ways in which the subject now matters both in principle and in the variety of critical approaches in authorizes Essays which are both literary and theoretical in character cover authors texts and issues in French literature from Descartes to the present A wide range of types of writing is examined from established forms such as the novel to relatively marginal and generically unsystematized discursive practices such as automatic writing and the *écriture* Though it shuns closure in a matter which remains ultimately elusive this book offers some account of the types of answer which remain open and of those we have learned to leave behind

Interdisciplinary Barthes Diana Knight, 2020-02-07

Interdisciplinary Barthes addresses the enduring stimulus that Barthes offers to intellectually adventurous work across the human sciences It contextualises his creative engagements with ethnology historiography philosophy ethics music photography and literature and traces the distinctive ways which he unsettled disciplinary boundaries

What Forms Can Do Patrick Crowley, Shirley Jordan, 2020-02-26 How does form propose a bridge between the text and the world beyond This volume investigates the agency of form across a spectrum of twentieth and twenty first century French and Francophone writings renewing the engagement with form that has been a key feature of French cultural production and of analysis in French studies

Volume 11, Tome II: Kierkegaard's Influence on Philosophy Jon Stewart, 2016-12-05 Kierkegaard's relation to the field of philosophy is a particularly complex and disputed one He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy But although it seems clear that Kierkegaard never regarded himself as a philosopher there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different philosophical traditions The tomes in this volume seek to document the different traditions of the philosophical reception of Kierkegaard's thought and the articles demonstrate the reach of Kierkegaard's writings in philosophical contexts that were often different from his own The present volume attempts to document these different traditions of the philosophical reception of Kierkegaard's thought The articles featured here aim to demonstrate the vast reach of Kierkegaard's writings in philosophical contexts that were often quite different from his own Tome II is dedicated to exploring Kierkegaard's influence

on Francophone philosophy The French intellectual tradition squares well with Kierkegaard's eclectic profile since its leading figures are often difficult to classify unambiguously as philosophers theologians literary critics or simply writers Kierkegaard's thinking was highly influential for many generations of French philosophers right up to the present It was not just existentialism that tried to co-opt Kierkegaard for its own purposes he has also been influential in the context of almost every modern school of French thought phenomenology feminism structuralism post structuralism semiotics and deconstruction

The Autobiography Effect Dennis Schep, 2019-07-24 Since the advent of post structuralism various authors have problematized the modern conception of autobiography by questioning the status of authorship and interrogating the relation between language and reality Yet even after making autobiography into a theoretical problem many of these authors ended up writing about themselves This paradox stands at the center of this wide ranging study of the form and function of autobiography in the work of authors who have distanced themselves from its modern instantiation Discussing Roland Barthes Jacques Derrida Hélène Cixous and others this book grapples with the question of what it means to write the self when the self is understood as an effect of writing Combining close reading intellectual history and literary theory *The Autobiography Effect* traces how precisely its theoretically problematic nature made autobiography into a central scene for the negotiation of philosophical positions and anxieties after structuralism
