"May the force be with you"

Luke Skywalker, the protagonist of the original Star Wars trilogy, is an extremely determined person. First of all, when Luke is confronted with undertaking the task of becoming a Jedi, he perseveres. Although he has just discovered that his aunt and uncle are dead on the planet Tatooine, Luke proceeds with his training. Furthermore, Luke continues his training even after his teacher and friend, Obi-Wan Kenobi, is killed by the evil Darth Vader. After this happens, Luke feels very much alone because he believes that he is the only Jedi left in the universe; however, Luke continues on his mission in spite of this feeling. As the trilogy continues, Luke is faced with numerous obstacles that test his will to go on. In the final episode, Luke must kill Darth Vader. Although he discovers that Darth Vader is his father, Luke knows that he must return to the Death Star to engage Darth Vader in a light saber battle that will finally declare a winner in the battle of good and evil. Without Luke's determination, the universe would have succumbed to the wrath of the dark side.

explains how to design create publish and manage a new generation of professional quality interactive pages for the World
Wide Web It features step by step instructions on developng this new tool *Verification Practice Under the Chemical*
Weapons Convention Walter Krutzsch,Ralf Trapp,1999-11-10 As Director General of the OPCW I believe that a broad based
informed discussion on these issues is desirable and will contribute to the success of the Convention It is for this reason that
I encouraged the preparation of *Verification Practice under the Chemical Weapons Convention A Commentary* I have
strongly supported the efforts of the authors Dr R Trapp and Dr W Krutzsch both of whom have been intimately involved in
the negotiations on and the implementation of the Chemical Weapons Convention The result of their efforts is this book This
is not a book for easy reading over a weekend The issues addressed are more often than not hardly exciting But this is a
much needed publication which I hope will be the first in the series of in depth studies of the CWC verification regime and
the practical work of the OPCW in this critically important area As the authors state in their introduction the substance of
this volume is their sole responsibility Some of their comments conclusions or suggestions may find not only supporters but
opponents as well which of course is only natural On the whole however I believe that whatever their views on the issues
raised all readers will share my view that this is a very useful and timely study From the Foreword by Josi M Bustani Director
General OPCW This Commentary on the verification provisions of the Chemical Weapons Convention builds on a previous
publication by the same authors *A Commentary on the Chemical Weapons Convention* Kluwer 1994 It focuses on the
verification regime established under the Convention and analyses the results of the preparatory phase as well as the
practical experience gathered bythe OPCW since the entry into force of the Chemical Weapons Convention in 1997 The book
