JR Anderson

Reading Culture 8th Edition Georgereading Culture George 8th :

The Romance between Greece and the East Tim Whitmarsh, Stuart Thomson, 2013-11-14 The contact zones between the Greco Roman world and the Near East represent one of the most exciting and fast moving areas of ancient world studies This new collection of essays by world renowned experts and some new voices in classical Jewish Egyptian Mesopotamian and Persian literature focuses specifically on prose fiction or the ancient novel Twenty chapters either offer fresh readings from an intercultural perspective of familiar texts such as the biblical Esther and Ecclesiastes Xenophon of Ephesus Ephesian Story and Dictys of Crete s Journal or introduce material that may be new to many readers from demotic Egyptian papyri through old Avestan hymns to a Turkic translation of the Life of Aesop The volume also considers issues of methodology and the history of scholarship on the topic A concluding section deals with the question of how narratives patterns and motifs may have come to be transmitted between cultures *Monthly Bulletin* Los Angeles Public Library, 1901 **Down the Up**

Staircase Bruce D. Haynes, Syma Solovitch, 2017-04-11 Down the Up Staircase tells the story of one Harlem family across three generations connecting its journey to the historical and social forces that transformed Harlem over the past century Bruce D Haynes and Syma Solovitch capture the tides of change that pushed blacks forward through the twentieth century the Great Migration the Harlem Renaissance the early civil rights victories the Black Power and Black Arts movements as well as the many forces that ravaged black communities including Haynes s own As an authority on race and urban communities Haynes brings unique sociological insights to the American mobility saga and the tenuous nature of status and success among the black middle class In many ways Haynes s family defied the odds All four great grandparents on his father s side owned land in the South as early as 1880 His grandfather George Edmund Haynes was the founder of the National Urban League and a prot g of eminent black sociologist W E B Du Bois his grandmother Elizabeth Ross Haynes was a noted children s author of the Harlem Renaissance and a prominent social scientist Yet these early advances and gains provided little anchor to the succeeding generations This story is told against the backdrop of a crumbling three story brownstone in Sugar Hill that once hosted Harlem Renaissance elites and later became an embodiment of the family s rise and demise Down the Up Staircase is a stirring portrait of this family each generation walking a tightrope one misstep from free fall

E. Kenyon Warner,1904 The Uses of Literacy Richard Hoggart,2017-09-29 This pioneering work examines changes in the life and values of the English working class in response to mass media First published in 1957 it mapped out a new methodology in cultural studies based around interdisciplinarity and a concern with how texts in this case mass publications are stitched into the patterns of lived experience Mixing personal memoir with social history and cultural critique The Uses of Literacy anticipates recent interest in modes of cultural analysis that refuse to hide the author behind the mask of objective social scientific technique In its method and in its rich accumulation of the detail of working class life this volume remains useful and absorbing Hoggart s analysis achieves much of its power through a careful delineation of the complexities of working class attitudes and its sensitivity to the physical and environmental facts of working class life The people he portrays are neither the sentimentalized victims of a culture of deference nor neo fascist hooligans Hoggart sees beyond habits to what habits stand for and sees through statements to what the statements really mean He thus detects the differing pressures of emotion behind idiomatic phrases and ritualistic observances Through close observation and an emotional empathy deriving in part from his own working class background Hoggart defines a fairly homogeneous and representative group of working class people Against this background may be seen how the various appeals of mass publications and other artifacts of popular culture connect with traditional and commonly accepted attitudes how they are altering those attitudes and how they are meeting resistance Hoggart argues that the appeals made by mass publicists more insistent effective and pervasive than in the past are moving toward the creation of an undifferentiated mass culture and that the remnants of an authentic urban culture are being destroyed In his introduction to this new edition Andrew Goodwin professor of broadcast communications arts at San Francisco State University defines Hoggart s place among contending schools of English cultural criticism and points out the prescience of his analysis for developments in England over the past thirty years He notes as well the fruitful links to be made between Hoggart s method and findings and aspects of popular culture in the United States
