 Day,1999 In the first comprehensive investigation of the role of landlords in shaping the urban landscapes of today Jared Day
 explores the unique case of New York City from the close of the nineteenth century through the World War II era During this
 period tenement landlords were responsible for designing and shaping America s urban landscapes building housing for the
 city s ever growing industrial workforce Fueled by the illusion of easy money entrepreneurs managed their buildings in ways
 that punished compassion and rewarded neglect and created some of the most haunting images of urban squalor in American
 history Urban Castles mines a previously uninvestigated body of tenant and landlord newspapers journals and real estate
 records to understand how tenement landlords operated in an era before tenant rights developed into a central issue for
 urban reformers Day contends that perhaps more than any other group of property owners urban landlords stood upon the
 very fault lines of class ethnicity and race In contrast to many urban histories set in executive boardrooms and state houses
 and which chronicle struggles between large corporations government officials and organized labor this fascinating work
 deals with the more chaotic world of small scale entrepreneurs and their frequently antagonistic relationships with their
 customers working class tenants Urban Castles is a richly informative chronicle of the dark underbelly of America s emerging
 welfare state The neglected side of this important story covered by Day s research says much about the sea changes in
 landlord tenant relations and urban policy today **The Bookseller, Newsdealer and Stationer** ,1907 The IMS ...
