formed a subterranean layer to her sunny life She went from success to success she went to Yale scored a dream job at a magazine right out of college and married her college boyfriend But in college the compulsive eating got worse she d binge swear it would be the last time and then hours later do it again and after she graduated she descended into anorexia her attempt to quit food Binge eating is more prevalent than anorexia or bulimia but there is less research and little storytelling to help us understand it In tart soulful prose Susan Burton strikes a blow for the importance of this kind of narrative and tells an exhilarating story of longing compulsion and hard earned self revelation
