Culture and Content in French Aurélie

Chevant-Aksoy, 2022-03-16 Instructors in today's language classrooms face the challenge of preparing globally competent and socially responsible students with transcultural aptitude. As classroom content shifts toward communication, collaboration, and problem solving across cultural, racial, and linguistic boundaries, the teaching of culture is an integral part of foreign language education. This volume offers nontraditional approaches to teaching culture in a complex time when the internet and social networks have blurred geographical, social, and political borders. The authors offer practical advice about teaching culture with kinesthetics, music, improvisation, and communication technologies for different competency levels. The chapters also explore multi-literacies, project-based learning, and discussions on teaching culture through literature, media, and film. The appendices share examples of course syllabi, specific course activities, and extracurricular projects that explore culinary practices, performing arts, pop culture, geolocation, digital literacy, journalism, and civic literacy.

The Gospel as

Manuscript Chris Keith, 2020-03-20 But the Bible says is a common enough refrain in many conversations about Christianity. The written verses of the four canonical Gospels are sometimes volleyed back and forth and taken as fact, while the apocryphal and oral accounts of the life of Jesus are taken as mere oddities. Early thinkers inside and outside the community of Jesus' followers similarly described a contentious relationship between the oral and the written, though they often focused on the challenges of trusting the written word over the spoken. Socrates described the written word an illegitimate bastard compared to the spoken word of a teacher. Nevertheless, the written accounts of the Jesus tradition in the Gospels have taken a far superior position in the Christian faith to any oral tradition. In *The Gospel as Manuscript*, Chris Keith offers a new material history of the Jesus tradition's journey from voice to page, showing that the introduction of manuscripts played an underappreciated but crucial role in the reception history of the gospel. From the textualization of Mark in the first century CE until the eventual usage of liturgical readings as a marker of authoritative status in the second and third centuries, early followers of Jesus placed the gospel as manuscript on display by drawing attention to the written nature of their tradition. Many authors of Gospels saw themselves in competition with other evangelists working to establish their texts as the quintessential Gospel. Reading the texts aloud in liturgical settings and further established the literary tradition in material culture. Revealing a vibrant period of competitive development of the Jesus tradition wherein the material status of the tradition frequently played as important a role as the ideas that it contained, Keith offers a thorough consideration of the competitive textualization and public reading of the Gospels.

Ancient Literacies William A Johnson, Holt N Parker, 2009-02-05 This timely volume attempts to formulate interesting new ways of talking about the entire concept of literacy in the ancient world literacy not in the sense of whether 10% or 30% of people in the ancient world could read or write but in the sense of text oriented events embedded in a particular socio cultural context The volume is intended as a forum in which selected leading scholars rethink from the ground up how students of classical antiquity might best approach the question of literacy in the past and how that investigation might materially intersect with changes in the way that literacy is now viewed in other disciplines

Readers and Reading Culture in the High Roman Empire William A. Johnson, 2010-06-03 In *Readers and Reading Culture in the High Roman Empire* William Johnson examines the system and culture of reading among the elite in second century Rome The investigation proceeds in case study fashion using the principal surviving witnesses beginning with the communities of Pliny and Tacitus with a look at Pliny's teacher Quintilian from the time of the emperor Trajan Johnson then moves on to explore elite reading during the era of the Antonines including the medical community around Galen the philological community around Gellius and Fronto with a look at the curious reading habits of Fronto's pupil Marcus Aurelius and the intellectual communities lampooned by the satirist Lucian Along the way evidence from the papyri is deployed to help to understand better and more concretely both the mechanics of reading and the social interactions that surrounded the ancient book The result is a rich cultural history of individual reading communities that differentiate themselves in interesting ways even while in aggregate showing a coherent reading culture with fascinating similarities and contrasts to the reading culture of today
