

The background of the slide is a photograph of a sunset or sunrise over a body of water. In the foreground, the dark silhouette of a cliff rises from the right side. On the cliff, there is a small, white, classical-style building with a pediment and columns. A tall palm tree stands next to the building. The sky is a gradient of warm colors, from a pale yellow at the top to a deep orange at the bottom. The text is overlaid on the upper left portion of the image.

P. Stern, 2021-12-16 First published in 1973 *On Realism* is a comprehensive introduction to the complex problem of literary realism Written from both a critical and philosophical perspective the book brings together the concrete study of literary cases and the conceptual analysis of the terms used in describing them It uses examples drawn from a wide range of European literature and engages in philosophical discussion to argue for a richer and freer sense of the concept than was more commonly in favour at the time of writing The book describes the literary forms of realism as an art of the middle distance and sets out its character and value against alternatives and distortions symbolism naturalism socialist realism faits divers and the literature of language consciousness *On Realism* will appeal to those with an interest in literary history the history of literary theory and literature and philosophy *God in the Act of Reference* Erica Appelros, 2017-03-02 To claim to believe in God without accepting that God exists independently of human minds would mean reducing God to merely a human construct thus not real enough for being the object of religious worship This book sets out to challenge this common view on existence and religious belief Arguing from concrete examples of language use in children's make believe play and other ordinary situations Erica Appelros suggests that what makes us consider something to be real involves our capacities to relate to our surroundings not only on grounds of their physical characteristics but also on grounds of human construction This book makes a substantial contribution to the contemporary debate within philosophy of religion on religious realism and non realism and suggests innovative and constructive solutions to the perennial philosophical and religious issue of what is meant by talking about God and God's existence [The Fictional Christopher Nolan](#) Todd McGowan, 2012-09-01 This analysis of the role of fiction in the films of Christopher Nolan is unassumingly brilliant and surgically incisive Psychoanalysis Culture and Society From *Memento* and *Insomnia* to the Batman films *The Prestige* and *Inception* lies play a central role in every Christopher Nolan film Characters in the films constantly find themselves deceived by others and are often caught up in a vast web of deceit that transcends any individual lies The formal structure of a typical Nolan film deceives spectators about the events that occur and the motivations of the characters While Nolan's films do not abandon the idea of truth altogether they show us how truth must emerge out of the lie if it is not to lead us entirely astray *The Fictional Christopher*

Nolan discovers in Nolan's films an exploration of the role that fiction plays in leading to truth Through close readings of all the films through Inception Todd McGowan demonstrates that the fiction or the lie comes before the truth and this priority forces us to reassess our ways of thinking about the nature of truth Indeed McGowan argues that Nolan's films reveal the ethical and political importance of creating fictions and even of lying Nolan is the first filmmaker to devote himself entirely to the fictionality of the medium and McGowan discloses how Nolan uses its tendency to deceive as the basis for a new kind of philosophical filmmaking aligning Nolan's films with Hegel's philosophy The most important work to date on Christopher Nolan A thrill to read Hugh S Manon Associate Professor and Director of Screen Studies Clark University **Literal**
