**Anaphora Resolution and Text Retrieval** Helene Schmolz, 2015-03-30. This book covers anaphora resolution for the English language from a linguistic and computational point of view. First a definition of anaphors that applies to linguistics as well as information technology is given. On this foundation all types of anaphors and their characteristics for English are outlined. To examine how frequent each type of anaphor is a corpus of different hypertexts has been established and analysed with regard to anaphors. The most frequent type are non-finite clause anaphors, a type which has never been investigated so far. Therefore the potential of non-finite clause anaphors are further explored with respect to anaphora resolution. After presenting the fundamentals of computational anaphora resolution and its application in text retrieval rules for resolving non-finite clause anaphors are established. Therefore this book shows that a truly interdisciplinary approach can achieve results which would not have been possible otherwise. Open Access. In July 2019 this volume was retroactively turned into an Open Access publication thanks to the support of the Fachinformationsdienst Linguistik <https://www.linguistik.de> **Automated**

Photographer's Guide to the Leica D-Lux 5 is a follow-up to the author's earlier guides to the Leica D-Lux 4, Panasonic Lumix LX3 and Panasonic Lumix LX5 digital cameras. The new book like the earlier ones explains all operations, features, menus and controls of the camera in clear language providing guidance not only about how to accomplish things with the camera but when and why to use certain features. The book does not assume any specialized knowledge by the reader but adopts a patient and helpful tone in explaining topics such as autofocus, manual focus, aperture priority, shutter priority, macro photography and RAW files. Besides providing guidance about all basic operations of the camera, the book includes introductions to advanced topics including astrophotography, infrared photography, street photography and creating 3D images. The book is illustrated with more than 150 color photographs and includes a full table of contents and index. **InfoWorld**, 1990-12-10. InfoWorld is targeted to Senior IT professionals.
