Formation of the Colonial State in India Hayden J. Bellenoit, 2017-02-17 In the period between the 1770s and 1840s through the process of colonial state formation the early colonial state in India was able to harness and extract vast amounts of agrarian wealth in north India However little is known of the histories of the Indian scribes and the role they played in shaping the early patterns of British colonial rule This book offers a new way of interpreting the colonial state s origins in north India It examines how the formation of early agrarian revenue settlements exacerbated an extant late Mughal taxation tradition and how the success of British power was shaped by this extant paper oriented revenue culture It goes on to examine how the service and cultural histories of various Hindu scribal communities fit within broader changes in political administration taxation patterns of governance and a shared Indo Islamic administrative culture The author argues that British power after the late eighteenth century came as much through bureaucratic mastery paper and taxes as it did through military force and commercial ruthlessness The book draws upon private family papers interviews and Persian sources to demonstrate how the fortunes of scribes changed between empires and the important role they played at the height of the British Raj by 1900 Offering a detailed account of how agrarian wealth provided the bedrock of the colonial
