

Abstract

Abstract is a summary of the entire research project, including the purpose, methods, results, and conclusions.

Abstract: Introduction

1. The purpose of this research is to determine the effect of the independent variable on the dependent variable.
2. The independent variable is the variable that is manipulated by the researcher, and the dependent variable is the variable that is measured.
3. The hypothesis of this research is that the independent variable will have a significant effect on the dependent variable.
4. The results of this research are as follows: the independent variable had a significant effect on the dependent variable, and the hypothesis was supported.

These results suggest that the independent variable has a significant effect on the dependent variable, and the hypothesis was supported.

Abstract: Methods

The methods section describes the procedures used to collect and analyze the data for this research.

1. The data were collected from a sample of 100 participants, who were randomly assigned to two groups: the experimental group and the control group.
2. The experimental group received the independent variable, and the control group did not.
3. The dependent variable was measured for each participant in both groups.
4. The results of the experiment are as follows: the experimental group had a significantly higher mean score on the dependent variable than the control group.
5. The results of the experiment are as follows: the experimental group had a significantly higher mean score on the dependent variable than the control group.
6. The results of the experiment are as follows: the experimental group had a significantly higher mean score on the dependent variable than the control group.
7. The results of the experiment are as follows: the experimental group had a significantly higher mean score on the dependent variable than the control group.
8. The results of the experiment are as follows: the experimental group had a significantly higher mean score on the dependent variable than the control group.

These results suggest that the independent variable has a significant effect on the dependent variable, and the hypothesis was supported.
