Archaeology in the Holy Land Kathleen Mary Kenyon,1985      **Archaeology in the Holy Land** Kathleen M.

Kenyon,1960 The emphasis in this book is on the first word in its title archaeology It does not claim to be a complete history for in the historical period literary evidence can give a much more detailed political religious and economic picture than has here been attempted But nevertheless a story of Palestine is the framework of the book with the emphasis upon the contribution that archaeology can make Down to c 3000 B C archaeology alone can write the story As the story is gradually merged into history archaeology still plays a very large part Only in the first millennium B C can history provide a reasonably consecutive story and even then it would remain a one sided unbalanced story without the help of archaeology This book therefore aims at showing the evidence that writes the story for the prehistoric period and in the historic periods concentrates on the evidence which supplements the written record using this only as a background for the archaeological material An excellent book has already been written by Professor Albright on the archaeology of Palestine But this appeared in 1949 and gave the picture provided by pre war archaeology for active field archaeology was virtually at a standstill between 1936 and 1952 Since then much has happened for Palestinian archaeology in both Jordan and Israel is an extremely live affair as all branches of archaeology should be The great modifications and amplifications for which fresh discoveries have provided the evidence is the justification for a new book      *Routledge Library Editions: Victorian Theatre*

**Preface** *Pondering the Spade* David B. Schreiner, 2019-04-17 The close relationship between the Old Testament and archaeology goes without saying However the methodological nuances involved are often either underappreciated or ignored Using William Dever's idea of convergence this work attempts to flesh out details on how archaeology and Old Testament studies merge It examines some of the most important archaeological

finds to date and determines that whether through a broad or narrow convergence the history of research has shown that these two separate disciplines exhibit a tendency to inform one another In the case of Old Testament studies these convergences may even be paradigm shifting In every case the convergences are historically and culturally informative and therefore illuminate the depth of the biblical text *Palestine Across Millennia* Nur Masalha, 2022-02-24 In this magisterial cultural history of the Palestinians Nur Masalha illuminates the entire history of Palestinian learning with specific reference to writing education literary production and the intellectual revolutions in the country The book introduces this long cultural heritage to demonstrate that Palestine was not just a holy land for the four monotheistic religions Islam Christianity Judaism and Samaritanism rather the country evolved to become a major international site of classical education and knowledge production in multiple languages including Sumerian Proto Canaanite Greek Syriac Arabic Hebrew and Latin The cultural saturation of the country is found then not solely in landmark mosques churches and synagogues but in scholarship historic schools colleges famous international libraries and archival centres This unique book unites these renowned institutions movements and multiple historical periods for the first time presenting them as part of a cumulative and incremental intellectual advancement rather than disconnected periods of educational excellence In doing so this multifaceted intellectual history transforms the orientations of scholarly research on Palestine and propels current historical knowledge on education and literacy in Palestine to new heights *The Boundaries of Jewishness in the Southern Levant 200 BCE-132 CE* John Van Maaren, 2022-06-06 Recent research has considered how changing imperial contexts influence conceptions of Jewishness among ruling elites esp Eckhardt *Ethnos und Herrschaft* 2013 This study integrates other often marginal conceptions with elite perspectives It uses the ethnic boundary making model an empirically based sociological model to link macro level characteristics of the social field with individual agency in ethnic construction It uses a wide range of written sources as evidence for constructions of Jewishness and relates these to a local specific understanding of demographic and institutional characteristics informed by material culture The result is a diachronic study of how institutional changes under Seleucid Hasmonean and Early Roman rule influenced the ways that members of the ruling elite retainer class and marginalized groups presented their preferred visions of Jewishness These sometimes competing visions advance different strategies to maintain rework or blur the boundaries between Jews and others The study provides the next step toward a thick description of Jewishness in antiquity by introducing needed systematization for relating written sources from different social strata with their contexts *Routledge Revivals: Trade, Travel and Exploration in the Middle Ages (2000)* John Block Friedman, Kristen Mossler Figg, 2017-07-05 First published in 2000 Trade Travel and Exploration An Encyclopedia covers the people places technologies and intellectual concepts that contributed to trade travel and exploration during the Middle Ages from the years C E 525 to 1492 This comprehensive reference work contains entries on a large number of subjects including familiar topics such as the voyages of Columbus and Marco Polo and also information that is more difficult to find for example the traditions
