The Early Tudor Court and International Musical Relations Theodor Dumitrescu, 2017-07-05 Since the days in the early twentieth century when the study of pre Reformation English music first became a serious endeavour a conceptual gap has separated the scholarship on English and continental music of the late fifteenth and early sixteenth centuries The teaching which has informed generations of students in influential textbooks and articles characterizes the musical life of England at this period through a language of separation and conservatism asserting that English musicians were largely unaware of and unaffected by foreign practices after the mid fifteenth century The available historical evidence nevertheless contradicts a facile isolationist exposition of musical practice in early Tudor England The increasing appearance of typically continental stylistic traits in mid sixteenth century English music represents not an arbitrary and unexpected shift of compositional

approach but rather a development prefaced by decades of documentable historical interactions Theodor Dumitrescu treats the matter of musical relations between England and continental Europe during the first decades of the Tudor reign c 1485 1530 by exploring a variety of historical social biographical repertorial and intellectual links In the first major study devoted to this topic a wealth of documentary references scattered in primary and secondary sources receives a long awaited collation and investigation revealing the central role of the first Tudor monarchs in internationalizing the royal musical establishment and setting an example of considerable import for more widespread English artistic developments By bringing together the evidence concerning Anglo continental musical relations for the first time along with new documents and interpretations concerning musicians music manuscripts and theory sources the investigation paves the way for a new evaluation of English musical styles in the first half of the sixteenth century Routledge Encyclopedia of Translation Studies Mona Baker, Gabriela Saldanha, 2019-09-20 The Routledge Encyclopedia of Translation Studies remains the most authoritative reference work for students and scholars interested in engaging with the phenomenon of translation in all its modes and in relation to a wide range of theoretical and methodological traditions This new edition provides a considerably expanded and updated revision of what appeared as Part I in the first and second editions Featuring 132 as opposed to the 75 entries in Part I of the second edition it offers authoritative critical overviews of additional topics such as authorship canonization conquest cosmopolitanism crowdsourced translation dubbing fan audiovisual translation genetic criticism healthcare interpreting hybridity intersectionality legal interpreting media interpreting memory multimodality nonprofessional interpreting note taking orientalism paratexts thick translation war and world literature Each entry ends with a set of annotated references for further reading Entries no longer appearing in this edition including historical overviews that previously appeared as Part II are now available online via the Routledge Translation Studies Portal Designed to support critical reflection teaching and research within as well as beyond the field of translation studies this is an invaluable resource for students and scholars of translation interpreting literary theory and social theory among other disciplines **Performing Arts and the Royal Courts of Southeast Asia, Volume Two**, 2024-05-21 This publication brings together current scholarship that focuses on the significance of performing arts heritage of royal courts in Southeast Asia The contributors consist of both established and early career researchers working on traditional performing arts in the region and abroad The first volume Pusaka as Documented Heritage consists of historical case studies contexts and developments of royal court traditions particularly in the nineteenth and twentieth centuries The second volume Pusaka as Performed Heritage comprises chapters that problematise royal court traditions in the present century with case studies that examine the viability adaptability and contemporary contexts for coexisting administrative structures **Radical Realisms in Contemporary British Theatre** Hannah Greenstreet, 2025-07-24 This book offers radical new insights into the relation between realism feminism and gender identities in contemporary theatre It maps the theatrical forms emerging from a new

wave of women's playwriting in Britain in the 2010s unsettling the boundaries between what is conventionally considered realist and what is considered experimental While realism has often been characterized as a politically conservative form in feminist criticism the author argues that contemporary feminist plays demonstrate the potential of realism both artistically and politically to adapt and respond to our changing world By re encountering realism as an experimental form through close analysis of plays and productions the author reveals the radicalism of realism anew Reconsidering longstanding debates in feminist theatre scholarship in the light of contemporary theatre practice in the UK this book also offers a new feminist formalist theoretical approach to analyzing plays Playwrights and practitioners studied include RashDash Katie Mitchell Alice Birch Ella Hickson Jasmine Lee Jones Tanika Gupta Young Jean Lee Lucy Kirkwood Travis Alabanza Yael Farber Split Britches and Caryl Churchill Case studies are enriched by original interviews with practitioners as well as performance analysis close reading and archival research This book explores and celebrates the vitality and inventiveness of contemporary feminist playwriting

issues of socialization in a globalized world It brings together scholars of politics media and performance who are committed to dialogue across both nation and discipline This study is the culmination of a two year project on the topic of Gendered Citizenship arising from an international collaboration that has sought to develop a comparative and yet singular perspective on performance in relation to key political themes facing our countries of origin in the early decades of this century The research is interdisciplinary and multinational drawing on Indian European and North and South American contexts

From Metaphor to Direct Speech E Susanna Weygandt, 2025 New Drama a collection of actors directors and playwrights in Russia Ukraine and Belarus is one of the most active and vibrant artistic movements in the Russophone world today yet remains understudied in the West E Susanna Weygandt demonstrates that the major innovation of New Drama is a sonic turn an aesthetic development that moves away from traditional Stanislavskian embodied performance to something almost purely aural New Drama which began in the tumult following the collapse of the Soviet Union and continues even in an increasingly censorious Russia today emphasizes contemporary social issues and privileges disadvantaged voices using documentary modes to literally bring the voices of the dispossessed to the ears of the audience members As a result the Russophone New Dramatists speak dissent and dramatize resistance Ultimately they shift theatrical productions from something constrained and limited in both place and time to an ephemeral but unbounded gateway for social activism The sonic stage thus effectively functions as a social forum transposing action from the actors to the audience *From Metaphor to Direct Speech* therefore contributes to cultural as well as performance studies offering a compelling look not just at developments in theatrical modes but also at dissent and cultural aesthetics in Russia today Hearst's International Combined with Cosmopolitan, 1912 *Art-Based Research in the Context of a Global Pandemic* Usva Seregina, Astrid Van den Bossche, 2022-09-30 Living through the Covid 19 global pandemic has changed the way that we experience our lives the way that we relate to one another and the way that we engage with the world Focusing contextually on the initial lockdowns of the pandemic in 2020 this book proposes that art based research has a central illuminative role to play in our understanding of unfolding crises The changes brought on by the global event may not be readily accessible or expressible through traditional academic research Art based research offers the opportunity to explore document and reflect on the emerging and often ineffable qualities of transformed lives by drawing on emotional bodily and interactive aspects of experience Such an approach allows for meaning making that makes room for reflexive interpersonal and dialogical engagement The contributions aim to capture and explore lived experiences of the pandemic as well as begin a discussion about how meaning making is changing through and beyond the pandemic This book further explores how the nature and practice of art based research in itself has been challenged and transformed The book will be of interest to scholars working in art education art psychotherapy consumer research visual studies cultural studies and sociology **International Dramaturgy** Maya E. Roth, Sara Freeman, 2008 This collection provides the first full length investigation of the oeuvre of one of Britain's leading

dramatists Timberlake Wertenbaker By considering the polyglot playwright's theatre from translations and adaptations to new plays as a dynamic continuum of translations and transformations Maya Roth and Sara Freeman create an intriguing focused frame for understanding Wertenbaker's work as distinctly cross cultural theatrically rich and intertextual providing a prescient case study of the translational turn emerging in international theatre today The contributors investigate translation theory and practice through Wertenbaker's diverse linguistic and genre translations from French ancient Greek and Italian to English and from myth history classics fairytale and literature to the stage Interrelated chapters by scholars and artists from varied countries language traditions and disciplines use performance studies comparative literature feminist theory and cultural anthropology to position Wertenbaker's theatre as a critical nexus for analyzing and imagining cross historical dialogues with contemporary audiences and our plural legacies Thanks to its substantive engagement with the ethics theories and collaborative practices of theatrical translation and adaptation more broadly and its equally rigorous examination of Wertenbaker's hybridic politics and poetics this collection can serve as a useful resource for scholars and artists both
