Samuel Hollander

Royal Economic Society Essay Competition 2013:

Uncertainty in Strategic Decision Making Richard J. Arend, 2024-01-03 Knight 1921 defines uncertainty as an informational market failure that while being detrimental to most existing businesses presents possible profitable opportunities for others This book builds upon that classic work by providing an analysis of the alternative approaches to strategic decision making under such uncertainty It covers what uncertainty is why it is important and what connections it has to business and related fields culminating in a new and comprehensive typology and a valuable guide for how to appropriately address various types of uncertainties even under AI It clarifies the current terminological and categorical confusion about unknowns while complementing the mathematical probability based approaches that treat uncertainty as knowable i e as risk It corrects the mistaken approaches that treat unknowables as shapeable or discoverable This book widens the perspective for viewing uncertainty in terms of its impacts across humanity by offering a shrewder understanding of what roles uncertainties play in human activity It will appeal to academics across business economics philosophy and other disciplines looking for approaches to apply test and hone for dealing with decision making under uncertainty Economic Thinkers David A. Dieterle, 2013-08-08 Who are the individuals whose novel ideas writings and philosophies have influenced economics throughout history and in doing so have helped change the world This encyclopedia provides a readable study of economics by examining the great economists themselves This book presents biographies of 200 economic thinkers throughout history supplying a one stop reference about the men and women whose ideas writings and philosophies created the foundation of our current understanding of economics Depicting their subjects within the contexts of history development economics and econometrics these biographies provide an insightful overview of the world of economics through the economists of significance and the many subdisciplines topics eras and philosophies they represent Economic Thinkers A Biographical Encyclopedia begins by describing economic thinkers in ancient Greece and Rome moves through history to cover economists in the 15th through 19th centuries and addresses economic theory in the 20th century and the modern era Written to be easily accessible and highly readable the work will appeal to students scholars general readers and anyone interested in learning about the historical and philosophical foundation of economics **The Minor Marshallians and Alfred Marshall** Peter Groenewegen, 2013-03-01 Alfred Marshall Professor of Economics at Cambridge University 1885 1908 produced a distinguished crop of students many of them leaders in the economics profession in subsequent generations Pigou Keynes and Denis Robertson are undoubtedly the most famous of these Marshall pupils but there were many more even if more minor forces in the development of early twentieth century economics This book intends to examine the major work of ten of these minor Marshallians Sydney John Chapman 1871 1951 John Harold Clapham 1873 1946 Charles Ryle Fay 1884 1961 Alfred William Flux 1867 1942 Frederick Lavington 1881 1927 Walter Thomas Layton 1884 1966 David Huchinson MacGregor 1827 1953 Joseph Shield Nicholson 1850 1927 Charles Percy Sanger 1871 1930 and

Gerald Francis Shove 1888 1947 to name them in alphabetical order The broad aim of this book is to evaluate the more important contributions of these minor Marshallians by selective examination of their major economic work That evaluation has at least two dimensions First it focuses on the significance of the author s individual contributions to the development of twentieth century economic thought Secondly it attempts to assess the Marshallian credentials of these contributions in order to indicate how Marshallian in their economics these pupils of Marshall s economics teaching actually stayed

Economists in Cambridge Maria Cristina Marcuzzo, Annalisa Rosselli, 2013-02-01 The University of Cambridge has produced more Nobel Prize winning economists than the whole of France This impressive book collects together largely unpublished correspondence from some of the twentieth century s key figures including Keynes Robinson Hayek and Sraffa

Socialism and War Bruce Caldwell, 2013-06-17 This volume draws on Hayek s shorter articles for weeklies and his reviews as well as academic papers and articles It also includes a substantial introduction providing full background and outlining the significance of this period for Hayek s intellectual development The material is divided into three sections Hayek s contributions to the famous market socialism debate Hayek s responses to the onset of war including his response to Keynes How to Pay for the War his papers on the relationship between economic planning and freedom **The end of the experiment?** Mick Moran, Andrew Bowman, Julie Froud, Sukhdev Johal, John Law, Adam Leaver, Karel Williams, 2014-05-31 For thirty years the British economy has repeated the same old experiment of subjecting everything to competition and market because that is what works in the imagination of central government This book demonstrates the repeated failure of that experiment by detailed examination of three sectors broadband food supply and retail banking The book argues for a new experiment in social licensing whereby the right to trade in foundational activities would be dependent on the discharge of social obligations in the form of sourcing training and living wages Written by a team of researchers and policy advocates based at the Centre for Research on Socio Cultural Change this book combines rigour and readability and will be relevant to practitioners policy makers academics and engaged citizens

Marshall and the Marshallian Heritage Katia Caldari, Marco Dardi, Steven G. Medema, 2020-10-24 Tiziano Raffaelli Pisa 1950 was a widely esteemed scholar in the field of the history and methodology of economics who died suddenly in January 2016 while still in the midst of working and of developing projects for new lines of research He was a philosopher of science by formation and a historian of economic ideas by professional choice with interests covering a vast area ranging from the 18th to the 20th century and from Europe to the US Where he left an indelible mark however was in his interpretation of Alfred Marshall s economic theory and its reverberations through Keynes on the one hand and the Cambridge school of industrial economics on the other Raffaelli s research in this field offered a completely new view of the core and meaning of Marshall s work and of its relevance for 21st century social scientists In the process it stimulated a new and fruitful research program in Marshallian economics This volume consists of two parts The first is devoted to illustrating the above mentioned changes in the understanding of

Marshallian economics and Raffaelli's role in bringing them about. The second part offers a collection of essays documenting some more recent developments in fields related to Marshall and his influence including welfare economics and industrial organization. Marshall's legacy in Cambridge economics, the Chicago school and beyond. The contributors to this volume range from leading senior scholars in the field to exceptional young scholars and their contributions. This illustrates a myriad of ways in which the new view of Marshall inspired by Raffaelli's work influences our understanding of the history of economics from the late 19th century onward. This book will be of international interest to scholars working in the history of economic thought and will also appeal to philosophers of science, methodologists, intellectual historians and those who specialize in industrial organisation.

The Routledge Handbook of Anarchy and Anarchist Thought Gary Chartier, Chad Van Schoelandt, 2020-12-30. This Handbook offers an authoritative up to date introduction to the rich scholarly conversation about anarchy, about the possibility, dynamics and appeal of social order without the state. Drawing on resources from philosophy, economics, law, history, politics and religious studies, it is designed to deepen understanding of anarchy and the development of anarchist ideas at a time when those ideas have attracted increasing attention. The popular identification of anarchy with chaos makes sophisticated interpretations which recognize anarchy as a kind of social order rather than an alternative to it especially interesting. Strong centralized governments have struggled to quell popular frustration even as doubts have continued to percolate about their legitimacy and long term financial stability. Since the emergence of the modern state, concerns like these have driven scholars to wonder whether societies could flourish while abandoning monopolistic governance entirely. Standard treatments of political philosophy frequently assume the justifiability and desirability of states focusing on such questions as: What is the best kind of state and What laws and policies should states adopt without considering whether it is just or prudent for states to do anything at all. This Handbook encourages engagement with a provocative alternative that casts more conventional views in stark relief. Its 30 chapters, written specifically for this volume by an international team of leading scholars, are organized into four main parts: I Concept and Significance, II Figures and Traditions, III Legitimacy and Order, IV Critique and Alternatives. In addition, a comprehensive index makes the volume easy to navigate and an annotated bibliography points readers to the most promising avenues of future research.

Essays on Classical and Marxian Political Economy Samuel Hollander, 2013. Samuel Hollander's work has been provoking discussion and debate for over four decades. This book brings together some of his key work from recent years in addition to some brand new pieces. The essays are brought together by an introductory chapter in which Hollander offers new perspectives and reflections on his past work. This collection is particularly notable in bringing to the fore work that is of particular relevance to contemporary problems and debates. In particular, Hollander puts forward his interpretation of Adam Smith's

Handbook on the Politics of Higher Education Brendan Cantwell, Hamish Coate, Roger King, 2018. Understanding the politics of Higher Education is becoming more important as the sector is increasingly recognised as a vital source of

innovation skills economic prosperity and personal wellbeing Yet key political differences remain over such issues as who should pay for higher education how should it be accountable and how we measure its quality and productivity Particularly are states or markets the key in helping to address such matters The Handbook provides framing perspectives and perspectives chapters on funding governance and regulation and pieces on the political economy of higher education and on the increased role of external stakeholders and indicators

Individuality in Language Change Lynn

Anthonissen,2021-10-25 Linguists have typically studied language change at the aggregate level of speech communities yet key mechanisms of change such as analogy and automation operate within the minds of individual language users Drawing on lifespan data from 50 authors and the intriguing case of the special passives in the history of English this study addresses three fundamental issues relating to individuality in language change i how variation and change at the individual level interact with change at the community level ii how much innovation and change is possible across the adult lifespan iii and to what extent related linguistic patterns are associated in individual cognition As one of the first large scale empirical studies to systematically link individual and community based perspectives in language change this volume breaks new ground in our understanding of language as a complex adaptive system

From Nomadism to Monarchy? Ido Koch,Oded Lipschits,Omer Sergi,2023-11-07 Archaeological exploration in the Central Highlands of the Southern Levant conducted during the 1970s and 1980s dramatically transformed the scholarly understanding of the early Iron Age and led to the publication of *From Nomadism to Monarchy Archaeological and Historical Aspects of Early Israel* by Israel Finkelstein and Nadav Na aman This volume explores and reassesses the legacy of that foundational text Using current theoretical frameworks and taking into account new excavation data and methodologies from the natural sciences the seventeen essays in this volume examine the archaeology of the Southern Levant during the early Iron Age and the ways in which the period may be reflected in biblical accounts The variety of methodologies employed and the historical narratives presented within these contributions illuminate the multifaceted nature of contemporary research on this formative period Building upon Finkelstein and Na aman s seminal study this work provides an essential update It will be welcomed by ancient historians scholars of early Israel and the early Iron Age Southern Levant and biblical scholars In addition to the editors the contributors to this volume are Eran Arie Erez Ben Yosef Cynthia Edenburg Israel Finkelstein Yuval Gadot Assaf Kleiman Gunnar Lehmann Defna Langgut Aren M Maeir Nadav Na aman Thomas R mer Lidar Sapir Hen Katja Soennecken Dieter Vieweger Ido Wachtel and Naama Yahalom Mack

A Sociology of Humankind Jeroen Bruggeman,2024-03-13 Based upon the interdependencies of human beings as we cooperate and conflict with each other how we share information and how culture evolves this book proposes a sociology of humanity covering three hundred millennia Grounded in empirical findings from archaeology history lab experiments and field studies supplemented for precision with computational network models of cultural evolution cooperation influence cohesion warfare power social balance and inequality this is the first attempt at encompassing sociology of humankind

Informed by the theory of cultural evolution it extends the notion that cultural evolution connects humans of all times in a giant sociocultural network thereby yielding coherence between a great many empirical findings It will therefore appeal to scholars of sociology and anthropology with interests in historical sociology cultural evolution and social theory *The Neoliberal Age?* Aled Davies, Ben Jackson, Florence Sutcliffe-Braithwaite, 2021-12-07 The late twentieth and early twenty first centuries are commonly characterised as an age of neoliberalism in which individualism competition free markets and privatisation came to dominate Britain's politics economy and society This historical framing has proven highly controversial within both academia and contemporary political and public debate Standard accounts of neoliberalism generally focus on the influence of political ideas in reshaping British politics according to this narrative neoliberalism was a right wing ideology peddled by political economists think tanks and politicians from the 1930s onwards which finally triumphed in the 1970s and 1980s The Neoliberal Age suggests this narrative is too simplistic Where the standard story sees neoliberalism as right wing this book points to some left wing origins too where the standard story emphasises the agency of think tanks and politicians this book shows that other actors from the business world were also highly significant Where the standard story can suggest that neoliberalism transformed subjectivities and social lives this book illuminates other forces which helped make Britain more individualistic in the late twentieth century The analysis thus takes neoliberalism seriously but also shows that it cannot be the only explanatory framework for understanding contemporary Britain The book showcases cutting edge research making it useful to researchers and students as well as to those interested in understanding the forces that have shaped our recent past Planning and Profit in the Urban Economy T.A. Broadbent, 2013-01-11 First Published in 2006 This text tries to answer some of the questions posed in the introduction to the British edition of After the Planners what is the relationship between government and industry and what is the role of planning within his relationship **Rethinking the Industrial Revolution** Michael Andrew Žmolek, 2013-08-19 In Rethinking the Industrial Revolution Five Centuries of Transition from Agrarian to Industrial Capitalism in England Michael Andrew molek offers the first in depth study of the evolution of English manufacturing from the feudal and early modern periods within the context of the development of agrarian capitalism With an emphasis on the relationship between Parliament and working Britons this work challenges readers to rethink the common perception of the role of the state in the first industrial revolution as essentially passive The work chronicles how a long train of struggles led by artisans resisting efforts by employers to transform production along capitalist lines prompted employers to appeal to the state to suppress this resistance by coercion **Forgotten Wives** Ann Oakley, 2021-07-06 Throughout history records of women's lives and work have been lost through the pervasive assumption of male dominance Wives especially disappear as supporters of their husbands work as unpaid and often unacknowledged secretaries and research assistants and as managers of men's domestic domains even intellectual collaboration tends to be portrayed as normative wifely behaviour rather than as joint work Forgotten Wives examines the ways in which the institution and status

of marriage has contributed to the active disremembering of women's achievements Drawing on archives biographies autobiographies and historical accounts best selling author and academic Ann Oakley interrogates conventions of history and biography writing using the case studies of four women married to well known men Charlotte Shaw Mary Booth Jeannette Tawney and Janet Beveridge Asking critical questions about the mechanisms that maintain gender inequality despite thriving feminist and other equal rights movements she contributes a fresh vision of how the welfare state developed in the early 20th century

The Politics of Transatlantic Trade Negotiations Jean-Frederic Morin, Tereza Novotná, Frederik Ponjaert, Mario Telò, 2016-03-09 By focusing on the wider process of negotiations this novel volume presents the first systematic analysis of the Transatlantic Trade and Investment Partnership TTIP The authors include outstanding scholars and relevant practitioners from across disciplines and various academic institutions around Europe and North America but also from outside of the transatlantic basin While presenting a thorough examination of the process of TTIP negotiations the volume is divided into four parts with each part examining a broader theme and offering three or four shorter exploratory chapters that are accessible to academics students policy makers and a wider audience The volume explores historical and theoretical aspects of TTIP with chapters by Gamble Keohane and Morse Tel the beginnings of the TTIP talks and the role of individual actors Mayer Novotná and Lechner Strange TTIP's possible knock on effects and consequences for third parties Aggarwal and Evenett Duchesne and Ouellet Zhang Ponjaert as well as impact on multilateral institutions and regimes complexes Mavroidis Mortensen Meunier and Morin Pauwelyn The authors highlight dynamics which underline the relationship between the United States and the European Union and argue that TTIP promises to have vast implications not just for economics but global governance and international system
