

Sample Argument Outline

The following is a basic outline of an argument essay. Keep in mind that this is only one kind of possible organization; there are several ways to structure an effective argument. Outlines can also vary in the amount of detail. Always check with your instructor if you are unsure about the organization of your essay. (Disclaimer: the following argument is used as an example and is not intended to represent the views of the UWC.)

Introductory Section

Thesis (claim and reason): The American government should lift economic sanctions against Iraq, because this policy does more harm than good for both countries.

Body Sections

Section I

Claim: The sanctions have not accomplished their goal.

Evidence: logical appeal (facts, expert authority)

- Saddam Hussein is still in power
- other dictators have withstood sanctions (Fidel Castro)

Section II

Claim: Rather than hurting Saddam, the sanctions only make life worse for the common people of Iraq

Evidence: logical appeal (statistics), ethical appeal (fair, humane), emotional appeal

- goes against American ideals of helping other people
- thousands of Iraqi children die each month sanctions continue
- restrictions on medicine and food hurt the poorest people first

Section III

Claim: Lifting sanctions would benefit the American economy by increasing oil production

Evidence: logical appeal (facts), emotional appeal

- would cut down on gas and oil prices

Section IV -- Dealing with the Opposition

1st Opposing View: Sanctions are necessary to prevent Iraq from supporting terrorists and becoming a regional problem again.

Strategy for Response: Concede that we want to prevent more conflict and stop terrorism...but we should lift sanctions gradually, and maintain a military presence in the area (compromise)

2nd Opposing View: Lifting sanctions would make the U.S. look weak.

Strategy for Response: It is the humane and fair action to take; also, sanctions contribute to hatred of the United States and encourage terrorist sentiment (rebuttal)

Conclusion

End with a conclusion that suggests the larger importance of this issue, and why we should care. Create a final statement that is powerful and memorable.

Reading, Thinking, and Writing About History Chauncey Monte-Sano, Susan De La Paz, Mark Felton, 2014 Although the Common Core and C3 Framework highlight literacy and inquiry as central goals for social studies, they do not offer guidelines, assessments, or curriculum resources. This practical guide presents six research-tested historical investigations along with all corresponding teaching materials and tools that have improved the historical thinking and argumentative writing of academically diverse students. Each investigation integrates reading, analysis, planning, composing, and reflection into a writing process that results in an argumentative history essay. Primary sources have been modified to allow struggling readers access to the material. Web links to original unmodified primary sources are also provided along with other sources to extend investigations. The authors include sample student essays from each investigation to illustrate the progress of two different learners and explain how to support students' development. Each chapter includes these helpful sections: Historical Background, Literacy Practices Students Will Learn, How to Teach This Investigation, How Might Students Respond, Student Writing, and Teacher Feedback. Lesson Plans and Materials. **Book Features:** Integrates literacy and inquiry with core U.S. history topics; Emphasizes argumentative writing, a key requirement of the Common Core; Offers explicit guidance for instruction with classroom-ready materials; Provides primary sources for differentiated instruction; Explains a curriculum appropriate for students who struggle with reading as well as more advanced readers; Models how to transition over time from more explicit instruction to teacher coaching and greater student independence. The tools this book provides, from graphic organizers to lesson plans to the accompanying documents, demystify the writing process and offer a sequenced path toward attaining proficiency. From the Foreword by Sam Wineburg, co-author of *Reading Like a Historian*. Assuming literate practice to be at the core of history learning and historical practice, the authors provide actual units of history instruction that can be immediately applied to classroom teaching. These units make visible how a cognitive apprenticeship approach enhances history and historical literacy learning and ensure a supported transition to teaching history in accordance with Common Core State Standards. Elizabeth Moje, Arthur F. Thurnau Professor, School of Education, University of Michigan. The C3 Framework for Social Studies State Standards and the Common Core State Standards challenge students to investigate complex ideas, think critically, and apply knowledge in real-world settings. This extraordinary book provides tried-and-true practical tools and step-by-step directions for social studies to meet these goals and prepare students for college, career, and civic life in the 21st century. Michelle M. Herczog, president, National Council for the Social Studies.
