

- Examination of the animals that are vertebrates, a group that includes organisms such as humans, birds, and frogs, demonstrates that through evolution, one basic body plan can give rise to organisms with very different features and forms. What is the significance of this?
 - Vertebrates may all be members of the same species.
 - Vertebrates may all be producers.
 - Vertebrates may all share a common ancestor.
 - Vertebrates are evolutionarily unrelated.
- Which of the following Kingdoms contains prokaryotic organisms?
 - Archaea
 - Fungi
 - Protista
 - Plantae
- Each and every living thing on Earth needs a source of ____ in order to survive.
 - oxygen and electricity
 - energy and carbon
 - carbon dioxide and fat
 - cells and tissues
- Lichens are formed by an association between
 - algae and plants.
 - fungi and plants.
 - algae and fungi.
 - protists and algae.
- Life on Earth is believed to have begun in the oceans. The first organisms to successfully move from the water to grow on land were probably
 - bacteria
 - fungi
 - plants
 - animals
- Based on the cladogram shown to the right, which of the following pairs of organisms would have the greatest number of shared derived features?
 - Lamprey eels and sharks
 - Sharks and salmon
 - Sharks and lizards
 - Salmon and lizards
- Based on the cladogram shown to the right, which organism appeared first in this evolutionary lineage?
 - Lamprey eel
 - Shark
 - Salmon
 - Lizard
- The number (6) at the top of the symbol for the element shown to the right is the ____ of this element.
 - atomic number
 - mass number
 - atomic mass
 - electron configuration
- An atom of the element whose symbol is shown to the right will have ____ electrons.
 - 2
 - 6
 - 12
 - 18

Sample Common Core Biology Questions

Catlin R. Tucker

Sample Common Core Biology Questions:

Blended Learning in Grades 4-12 Catlin R. Tucker, 2012-06-13 This book comes at the right time with answers for teachers principals and schools who want to be on the cutting edge of the effective use of technology the internet and teacher pedagogy

Common Core Standards in Diverse Classrooms Jeff Zwiers, Susan O'Hara, Robert Pritchard, 2023-10-10 The Common Core State Standards require students to do more with knowledge and language than ever before Rather than be mere consumers of knowledge students must now become creators critics and communicators of ideas across disciplines Yet in order to take on these new and exciting roles many students need daily teaching with an extra emphasis on accelerating their academic communication skills Common Core Standards in Diverse Classrooms Essential Practices for Developing Academic Language and Disciplinary Literacy describes seven research based teaching practices for developing complex language and literacy skills across grade levels and disciplines using complex texts fortifying complex output fostering academic interaction clarifying complex language modeling guiding and designing instruction Most important you will find clear descriptions and examples of how these essential practices can and should be woven together in real lessons The book Clarifies how to support the learning of complex language that students need for reaching Common Core and other standards Provides practical ways to realize the instructional shifts needed with the implementation of new standards in diverse classrooms Includes frameworks and descriptions on how to develop students complex language speaking and writing Helps maximize strategies and tools for building system wide capacity for sustained growth in the practices Common Core Standards in Diverse Classrooms is a concise guide for helping us improve our practices to strengthen two vital pillars that support student learning academic language and disciplinary literacy Susan Udelhofen, 2014-04-25 Discover your road map for creating a curriculum based on the Common Core State Standards Explore various stages of curriculum development from the preliminary work of building academic support to creating Common Core curriculum maps and tracking school improvement goals Learn to effectively share information during the curriculum building process and engage in significant collaborative conversations around the curriculum

Born Reading Jason Boog, 2014-07-15 A program for parents and professionals on how to raise kids who love to read featuring interviews with childhood development experts advice from librarians tips from authors and children's book publishers and reading recommendations for kids from birth up to age five Every parent wants to give his or her child a competitive advantage In Born Reading publishing insider and new dad Jason Boog explains how that can be as simple as opening a book Studies have shown that interactive reading a method that creates dialogue as you read together can raise a child's IQ by more than six points In fact interactive reading can have just as much of a determining factor on a child's IQ as vitamins and a healthy diet But there's no book that takes the cutting edge research on interactive reading and shows parents teachers and librarians how to apply it to their day to day lives with kids until now Born Reading provides step by step instructions on interactive

reading and advice for developing your child's interest in books from the time they are born Boog has done the research talked with the leading experts in child development and worked with them to compile the Born Reading Essential Books lists offering specific titles tailored to the interests and passions of kids from birth to age five But reading can take many forms print books as well as ebooks and apps and Born Reading also includes tips on how to use technology the right way to help not hinder your child's intellectual development Parents will find advice on which educational apps best supplement their child's development when to start introducing digital reading to their child and how to use tech to help create the readers of tomorrow Born Reading will show anyone who loves kids how to make sure the children they care about are building a powerful foundation in literacy from the beginning of life

Developing Assessments for the Next Generation Science Standards National Research Council, Division of Behavioral and Social Sciences and Education, Board on Science Education, Board on Testing and Assessment, Committee on Developing Assessments of Science Proficiency in K-12, 2014-05-29

Assessments understood as tools for tracking what and how well students have learned play a critical role in the classroom Developing Assessments for the Next Generation Science Standards develops an approach to science assessment to meet the vision of science education for the future as it has been elaborated in A Framework for K 12 Science Education Framework and Next Generation Science Standards NGSS These documents are brand new and the changes they call for are barely under way but the new assessments will be needed as soon as states and districts begin the process of implementing the NGSS and changing their approach to science education The new Framework and the NGSS are designed to guide educators in significantly altering the way K 12 science is taught The Framework is aimed at making science education more closely resemble the way scientists actually work and think and making instruction reflect research on learning that demonstrates the importance of building coherent understandings over time It structures science education around three dimensions the practices through which scientists and engineers do their work the key crosscutting concepts that cut across disciplines and the core ideas of the disciplines and argues that they should be interwoven in every aspect of science education building in sophistication as students progress through grades K 12 Developing Assessments for the Next Generation Science Standards recommends strategies for developing assessments that yield valid measures of student proficiency in science as described in the new Framework This report reviews recent and current work in science assessment to determine which aspects of the Framework's vision can be assessed with available techniques and what additional research and development will be needed to support an assessment system that fully meets that vision The report offers a systems approach to science assessment in which a range of assessment strategies are designed to answer different kinds of questions with appropriate degrees of specificity and provide results that complement one another Developing Assessments for the Next Generation Science Standards makes the case that a science assessment system that meets the Framework's vision should consist of assessments designed to support classroom instruction assessments designed to monitor science

learning on a broader scale and indicators designed to track opportunity to learn New standards for science education make clear that new modes of assessment designed to measure the integrated learning they promote are essential The recommendations of this report will be key to making sure that the dramatic changes in curriculum and instruction signaled by Framework and the NGSS reduce inequities in science education and raise the level of science education for all students
