..Introduction..

Ninja were the ultimate warriors of feudal Japan. Cloaked in darkness and secrecy, the Ghost-Soldiers struck fear into the hearts of their enemies and wreaked havoc on those who incurred their wrath. The Ninja do what must be done, and then it is forgotten. One must be invisible in the presence of the enemy, penetrate unseen anywhere, and pass without leaving a trace. Thus is the silent way of the Mystic-Knights, the Moonlit Path of the Shadow-Warrior, the Invisible Assassins of Feudal Japan, the Ninja.

Where there is no justice, the Ninja appear. They are not "called to action" by anyone. They are just ordinary people in extraordinary situations. They need not have a "clan" or "credentials" or even a great deal of training. They need only the Will.

The principles and forms presented herein are intended for use by the lone individual. Some may wish to have a "clan", there is nothing wrong with this; however, each Ninja must follow his own path, and must never follow another blindly. The techniques presented should never be used for personal gain. Because some techniques are easy to learn and very effective, they have been used to train and build up large armies quickly. Do not use these skills to harm others, or for personal benefit. One must follow their heart, thus is the true lesson of Ninjitsu.

..History of the Ninjas..

Excerpt from "History of the Ninja" by www.4mattheninja.com

The history of the Ninja is hard to trace. This is because there were few, if any records kept of its existence. Most of what is known about the Ninja is taken from stories that have been passed down from generation to generation.

Nonuse ("the art of stealth") was first introduced to Japan in 522 A.D. as a religion practiced by priests. These priests were not violent people, they were "mystics" who gathered and shared information for the ruling classes. The Ninja as we know them were not introduced until later.

It wasn't until 645 A.D. that the priests perfected their fighting skills and made use of their knowledge of nonuse. This was because they found themselves being harassed by the central government and found it necessary to protect themselves.

In 794-1192 A.D. the new civilization flourished and with it, a new class of wealthy, privileged families. These families fought with one another in attempts to make or destroy emperors. The need for spies, informants and now assassins grew as these families duelled for power. They were suspicious and jealous of one another and would resort to any means necessary to eliminate any possible threats. Therefore, the practitioners of nonuse were in great demand. With this, the Ninja was born.

As the Ninja gained popularity, so did the stories of their superhuman abilities. This reputation was often encouraged by the Ninja themselves. Because they were a relatively weaker people than their counterparts, the Samurai, and were vulnerable to attack by the many warring families around them, it was to their advantage to have others believe they had such powers. Powers like having the strength of ten men, ability to turn into animals, fly and become invisible at will. The Ninja movies also added to the abilities by having the Ninja jump over buildings in a single jump, catch bullets in their teeth, and see into the future.

At this point you must understand the Samurai to truly understand just why the Ninja were so effective and in such
