MANAGEMENT: 100% O₂ + hyperbaric O₂ + 100% O₂ until carboxyhemoglobin < 10%.

May need hyperbaric O₂ in severe cases (carboxyhemoglobin > 10%, severe neuro signs).

DC current can often instantly stop the victim from the current source (due to single large muscle spasm) but muscle spasms may injury. AC currents can cause muscle contractions (causing patient to hold on tight to the source).

CLINICAL MANIFESTATIONS

- Myocardial infarction. ECG is recommended to look for myocardial infarction.
- Neurologic.

First Line Guide, LLC Mike Sacks,2024 We set out to write this book hoping to fill a void we experienced as we were
going through PA school There were two types of textbooks the gold standard textbooks that provided immense amounts of
information but were challenging to read through and on the other side of the spectrum there were the many quality study
guides that provided limited detail and were useful only if you already understood the content What was missing was the
book in the middle A clear and concise book that provided enough detail a didactic student could pick it up and read about
diseases they had yet to hear of A book focused enough that a clinical student could quickly use it to reference things they
struggled to recall A book so high yield students could later use it to review for the PANCE Most importantly we sought a
book that the student wouldn't sell or pass on to someone else once they graduated but kept on their desk at work to
reference in practice In realizing we couldn't find such a book we set out to write it ourselves We hope this will be the book
that walks that fine line and is useful to everyone **Pearls** Pearls,2019-01-10 **Pearls** Pearls,2019-01-10

Adopting the Tune of Term: An Mental Symphony within **Pance Prep Pearls**

In some sort of eaten by monitors and the ceaseless chatter of instantaneous communication, the melodic splendor and psychological symphony created by the published term usually fade in to the back ground, eclipsed by the relentless noise and distractions that permeate our lives. But, located within the pages of **Pance Prep Pearls** a charming literary prize overflowing with fresh emotions, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that fascinating masterpiece conducts visitors on a mental journey, skillfully unraveling the hidden songs and profound impact resonating within each cautiously constructed phrase. Within the depths of the poignant assessment, we will explore the book is main harmonies, analyze its enthralling publishing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
