If a soldier's goal is to expand his or her credentials through education or training this book is the definitive field manual.

How to Make Colleges Want You Mike Moyer, 2008-08-01 What if you had colleges coming after you instead of the other way around? The hidden little secret of college admissions is that most schools are desperate for great kids who do things differently and will make their campuses vibrant and exciting. And you don't have to be an A student, the president of your student body or the winner of the national spelling bee to do this. Any student can become someone that colleges compete for if you follow the recommendations in this book. The Secret of NTAs: Unusual activities that make you stand out. Breaking the Zone: Take advantage of where you're from and who you are. Striking the Nerve: Decode what colleges believe in then match those values. Your Application Team: Getting references teachers and counselors to boost your odds. And much more. No matter where you are in your high school career you can start these things today and vastly increase your odds of getting into the competitive college of your choice.

Applying to American Universities and Colleges for Parents and Students Krystal Ann Flores, 2014 As more students engage the help of an education consultant when applying for colleges how can students have an edge over their competition? Often times students go about the application process on their own or seek the advice of an agency many of which are led by individuals who have not personally experienced applying to and being accepted by elite American colleges. Regardless of a student's choice this book provides students and parents with an in depth holistic view of American college applications. In a competitive applicant market where it is increasingly difficult to gain acceptance into top universities specific useful insights found in this book are necessary for students and parents who want to succeed. This book discusses successful and unsuccessful application trends and guides readers on how to avoid common mistakes. The author who was accepted to 18 universities and graduated from Yale University knows the entire application range. Having spent several years in China working with students on college applications she has knowledge of both the Western and Asian systems that would help international applicants, particularly Asian students, in their endeavors.

Ghostwriting and the Ethics of Authenticity John C. Knapp, Azalea M. Hulbert, 2016-11-18 This book presents an ethical framework which evaluates the legitimacy of the practice of ghostwriting. It explores the connection between personal authenticity and the use of ghostwriters in corporate, political, legal, higher education and scientific contexts. It then examines the history of ghostwriting as a professional practice and introduces a model for ethical analysis. In this book the authors shrewdly address crucial ethical questions such as: When is it acceptable for a leader to claim the words of a ghostwriter as their own? When may this be inappropriate or even dangerously misleading?

What are the consequences when public awareness of this practice leads to cynicism about the authenticity of leaders and their communications And when if ever is the use of a ghostwriter ethical This book will be welcomed by scholars and practitioners alike as an original and timely contribution to the literature of business politics and communications
