Manufacturing Engineering ,2009 Flexible Automation in Developing Countries Ludovico Alcorta,2003-09-02 This book examines the extent of and motives for the diffusion of flexible automation FA at global level and then turns to the local and firm level bringing together in depth studies of sixty two firms in Brazil India Mexico Thailand Turkey and Venezuela Research focuses on the impact of computer numerically controlled machine tools on scale and scope by exploring changes in lot sizes and product variety product scale and scope total plant output plant scale and total firm output firm scale

Barriers to setting up FA based operations are discussed as are factors which may affect a decision to locate in a developing country. The contributed studies reveal a relatively slow diffusion of FA in developing countries and it is demonstrated that while FA possibly increases scope it also requires that plant output be increased in order to maintain efficiency Alcorta concludes that the location in developing countries will probably only be viable for large domestic firms multinationals seeking to relocate simple but labour intensive assembly processes and firms in countries with significant domestic markets This work is unique in addressing the scale and scope issues in developing countries and in the wealth of information regarding machine tools which it provides The data provided in the appendix includes official United Nations data previously unpublished This will be of use for all research into trends in the use of machine tools Thomas Register of American Manufacturers, 2003 Vols for 1970 71 includes manufacturers catalogs April 2024 - Surplus Record Machinery & Equipment Thomas Scanlan, SURPLUS RECORD is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 150 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes cnc equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more Over 1 100 businesses list with the SURPLUS RECORD November 2023 issue Vol 101 No 4 Surplus Record Machinery & Equipment Directory Surplus Record, 2022-03-01 SURPLUS RECORD is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more Over 1 100 businesses list with the SURPLUS RECORD March 2022 issue Vol 99 No 3 May 2023 - Surplus Record Machinery & Equipment **Directory** Tom Scanlan, 2023-05-01 SURPLUS RECORD is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 110 000 industrial assets since 1924 including metalworking and fabricating machine tools lathes one equipment machine centers woodworking equipment food equipment chemical and process equipment cranes air compressors pumps motors circuit breakers generators transformers turbines and more Over 1 100 businesses list with the SURPLUS RECORD May 2023 issue Vol 100 No 5 **April 2023 -**Surplus Record Machinery & Equipment Directory Thomas M.
