

Family Nurse Practitioner

patients. They perform a collaborative practice in which they work with healthcare professionals as a team. They are able to order testing, refer patients and treat non-life threatening conditions (Bennett, 2004). The Texas Board of Practice on this same thought states that the APN acts independently and/or in collaboration with other health care professionals to deliver health care services (Texas Board of Practice, Section 221). They accordingly accomplish comprehensive health assessments with the goal of managing common acute illnesses, appropriate referral, managing chronic conditions that have remained stable. In this description there are included: Nurse Practitioner, Clinical Nurse Specialist, Certified Nurse Midwives and Certified Nurse Anesthetists.

The role originated in the University of Colorado in 1965. In 1974 the American Nurses Association published educational guidelines for credentialing of a NP. Since then, there have been many changes in the program and of course since there are so many types of programs available, there are concerns as to the quality and effectiveness of those programs. That curriculum includes advanced physiology, pharmacology, and clinical practice emphasizing a particular role. Texas strengthened even more of the program in the sense that they increased content for path physiology, pharmaco-therapeutics, practice roles, and preceptorship (Bennett, 2004).

In most cases, registered nurses are required to obtain a Masters degree in nursing and have at least one year of RN experience before they are allowed to enter a Nurse Practitioner program, however, that is not always true. Nurse Practitioners can come from a variety of backgrounds. There are programs that admit students into graduate study without prior experience as a nurse. When that happens they must have a Baccalaureate in a field other than
