Political Systems Of East Asia China Korea And Japan:

Political Systems of East Asia Louis D Hayes, 2014-12-18 This innovative interdisciplinary introduction to East Asian politics uses a thematic approach to describe the political development of China Japan and Korea since the mid nineteenth century and analyze the social cultural political and economic features of each country Unlike standard comparative politics texts which often lack a unifying theme and employ Western conventions of the state *Political Systems of East Asia* avoids these limitations and identifies a common thread running through the histories of China Korea and Japan This common thread is Confucianism which has shaped East Asian perspectives of the universe and how it operates The text describes and explains the ways in which each country has employed this shared tradition and how it has affected the country's internal dynamics responses to the outside world and its own political development *The Politics Of East Asia* John E.

Endicott, William R. Heaton, 2019-07-16 This is the first undergraduate text on the politics of East Asia to be published since 1970 Looking at both domestic and international politics the authors discuss the political systems of China Japan and Korea within the context of environmental factors culture society the economy geography language historical and political traditions etc The People's Republic of China is presented as a country with strong traditions committed to rapid development under frequently changing ideological auspices Its two governmental apparatuses the party and the bureaucracy sometimes act in unison sometimes are locked in fierce struggles and often are motivated by differing ideologies and administrative dynamics Japan is seen as a mature society and a developed economy with functioning democratic institutions and a strong party system but like the PRC subject to powerful traditions and influenced by radical ideologies Both North and South Korea are discussed with a comparison and contrast of the authoritarian democratic system in the South where a basically democratic parliament finds itself in conflict with a quasi dictatorial regime and an all powerful president The book is completely up to date The section on China takes into account the major developments of the post Mao period including the accession of Hua Kuo feng and the struggle against the Shanghai faction The discussion of Japanese politics covers the 1976 elections and the creation of the Shin Jiyu club in the developing thrust away from factional politics to an issue oriented electorate *East Asia* Great Britain: Parliament: House of Commons: Foreign Affairs

Committee, 2006-08-13 *East Asia* Seventh report of session 2005 06 Vol 2 Oral and written Evidence **Gale Researcher**

Wiarda Ph.D., 2017-09-05 Howard J Wiarda who was the Dean Rusk Professor of International Relations at the School of Public and International Affairs at the University of Georgia outlines a paradigm shift in world politics that has been driven by two overarching trends the shift from a U S and Western

favored model of development to different models and the decline of a Western system of world order In examining these two trends he seeks to answer questions such as Why are the gaps increasing rather than shrinking between the rich and the poor both within countries and between the developed countries and developing ones Why have some countries and regions adapted to the newer pressures of globalization democratization and new markets and others have not Why does the Middle East Southeast Asia Sub Saharan Africa and much of Latin America still lag behind while others are forging ahead By taking a regional view of development and international relations the author challenges the view that one theoretical framework can explain the economic social and foreign policy approaches of all countries *Business Systems in East Asia* Professor

Richard Whitley,1992-07-27 In this major contribution to comparative international business Richard Whitley compares and contrasts the dominant characteristics of firms and markets in Japan South Korea Taiwan and Hong Kong relating these to their particular social political and economic contexts At the level of the firm he looks at such areas as management styles and structures decision making processes owner employee relations and patterns of company growth and development He also discusses market development customer supplier and inter firm relations and the roles of the financial sectors and the state in market and industry development The book also examines the ways in which key social institutions in each country have affected the evolution of business Finally the author makes a comparison of East Asian business systems with dominant Western practices **Conflict Management, Security and Intervention in East Asia** , *The New Geopolitics of Sport*

William Kelly,J.A. Mangan,2015-09-07 The global geopolitics of sport is being transformed in and by East Asia Sport in recent decades has been avidly embraced by East Asian nations with implications both for their image on the international stage and their domestic national identities The three post war East Asian Olympic Games the glittering Guangzhou Asian Games in 2010 and the march of Asia into the global sport market illustrate the fact that a new global sports order has emerged This collection uniquely discerns the tectonic shift of global power in the geopolitical economic cultural and social dynamics of sport from West to East It also reveals that the global empire of commerce is similarly shifting eastwards The chapters written by leading authorities on East Asia widens the focus advances the knowledge and sharpens the appreciation of both global sport and regional current transformation in the making and in doing so contributes to an understanding of profound changes in global sport This book was originally published as a special issue of The International Journal of the History of Sport *Early Modern East Asia* Kenneth M. An Introduction to International Relations and Religion Jeffrey

Haynes,2014-04-23 Not so very long ago it seemed reasonable to assert that the influence of religion on global politics was on the wane As the Western world became increasingly secular and the process of globalisation deepened it seemed inevitable on the surface at least that the voice of religion was to be heard softly if it was to be heard at all This has now changed and changed perhaps irrevocably As Jeff Haynes argues in this thought provoking and important new book various religious actors are now significantly involved in international relations and have become a crucial influence on policy in a post Westphalian world International Relations and Religion guides the reader through the complex issues at the heart of this topic with clarity and insight This updated second edition starts with a close reading of the many theoretical and analytical concepts notably Huntington and the clash of civilisations that have grown up around this area and then concludes with a summary of the issues under discussion and attempts to put into context what it means to live in a world that is increasingly shaped by a whole host of diverse religious groups Essential reading for students of International Relations and Politics

The End of Pax Americana Naoki Sakai,2021-12-06 In The End of Pax Americana Naoki Sakai focuses on U S hegemony s long history in East Asia and the effects of its decline on contemporary conceptions of internationality Engaging with themes of nationality in conjunction with internationality the civilizational construction of differences between East and West and empire and decolonization Sakai focuses on the formation of a nationalism of hikikomori or reclusive withdrawal Japan s increasingly inward looking tendency since the late 1990s named for the phenomenon of the nation s young people sequestering themselves from public life Sakai argues that the exhaustion of Pax Americana and the post World War II international order under which Taiwan South Korea Hong Kong and China experienced rapid modernization through consumer capitalism and a media revolution signals neither the decline of the West nor the rise of the East but rather a dislocation and decentering of European and North American political economic diplomatic and intellectual influence This decentering is symbolized by the sense of the loss of old colonial empires such as those of Japan Britain and the United States

Transforming Empire in Japan and East Asia Robert Eskildsen, 2019-01-02 This book examines the history of a military expedition the Japanese government sent to southern Taiwan in 1874 in the context of Japan's subordination to Western powers in the unequal treaty system in East Asia It argues that events on the ground in Taiwan show the Japanese government intended to establish colonies in southern and eastern Taiwan and justified its colonial intent based on the argument that a state must spread civilization and political authority to territories where it claimed sovereignty thereby challenging Chinese authority in East Asia and consolidating its power domestically The book considers the history of the Taiwan Expedition in the light of how Japanese imperialism began it emerged as part of the process of consolidating government power after the Meiji Restoration it derived from Western imperialism it developed in a dynamic relationship with Western imperialism and it increased Japan's leverage in its competition for influence in East Asia
