

Malala the Powerful

The true story of a teen girl who almost died for her right to go to school

BY KRISTIN LEWIS

October 9, 2012, was an ordinary afternoon in the Swat Valley in northern Pakistan. Malala Yousafzai (yoo-saf-ZAY), 15, was on a school bus waiting to go home. Suddenly, two gunmen in masks appeared.

"Who is Malala?" one of them yelled. A feeling of terror filled the bus. Then the gunmen opened fire. One bullet hit Malala's head. Two of Malala's friends were struck in their arms. Then the gunmen ran off, leaving Malala to die.

It might be difficult to understand why anyone would try to murder an innocent girl on her way home from school. But some people in Pakistan did not view Malala for what she was: a bright and kind teenager. They saw her as a dangerous threat to their way of life.

Malala had been fighting for the right for all girls to go to school—work that made her famous around the world.

It also made her a target of an evil group of **terrorists** called the Taliban.

Strategies That Work Stephanie Harvey, Anne Goudvis, 2017. In this new edition of their groundbreaking book *Strategies That Work*, Stephanie Harvey and Anne Goudvis share the work and thinking they've done since the second edition came out a decade ago and offer new perspectives on how to explicitly teach thinking strategies so that students become engaged, thoughtful, independent readers. Thirty new lessons and new and revised chapters shine a light on children's thinking, curiosity, and questions. Steph and Anne tackle close reading, close listening, text complexity, and critical thinking in a new chapter on building knowledge through thinking-intensive reading and learning. Other fully revised chapters focus on digital reading strategies for integrating comprehension and technology and comprehension across the curriculum. The new edition is organized around three sections. Part I provides readers with a solid introduction to reading comprehension instruction, including the principles that guide practice suggestions for text selection and a review of recent research that underlies comprehension instruction. Part II contains lessons to put these principles into practice for all areas of reading comprehension. Part III shows you how to integrate comprehension instruction across the curriculum and the school day, particularly in science and social studies. Updated bibliographies, including the popular Great Books for Teaching Content, are accessible online. Since the first publication of *Strategies That Work*, more than a million teachers have benefited from Steph and Anne's practical advice on creating classrooms that are incubators for deep thought. Now in its third edition, this indispensable text offers a critical perspective on how to integrate children's literature into the curriculum in effective, purposeful ways.
