

# **HIGH SCHOOL EMERGENCY ACTION PLAN**

Emergency situations may occur at any time during an athletic event or competition. Medical emergencies are not limited to student-athletes but can also occur to coaches, department support staff, student support staff, and spectators.

The purpose of the emergency action plan is to help the staff members, athletic trainer(s) and emergency personnel in the event of an emergency to arise during an athletic event. This includes any situation where the athlete or any person's life is in danger.

The emergency action plan includes:

- The role of each person
- Emergency equipment
- Directions to facilities and the protocol for each facility.

## **EMERGENCY**

An emergency is the need for Emergency Medical Services (EMS) to give further medical attention and/or transport an athlete to the hospital. This includes any situation where the athlete or any person's life is in danger.

Situations when 911 should be called are:

- an athlete is not breathing
- an athlete has lost consciousness
- it is suspected that an athlete may have a neck or back injury
- an athlete has an open fracture (bone has punctured through the skin)
- severe heat exhaustion or suspected heat stroke
- severe bleeding that cannot be stopped

Nursing Management of Pediatric Disaster Catherine J. Goodhue, Nancy Blake, 2020-05-13 This textbook describes what nurses need to know about pediatric disaster nursing including public policy and addresses preparedness for all types of disasters, natural and man made, and strategies for hospital, school, and community preparedness. The book opens with a brief history of disaster nursing and explains the key differences between pediatric and adult disaster nursing. Recent years have been marked by numerous man made and natural disasters which have led nurses to seek new resources to be better prepared in their role as nurses for all types of disasters. Responding to this lack of resources, the book focuses on the unique needs of babies and children. It is the first and only textbook on pediatric disaster preparedness to include both the physical and psychological effects of disaster. Key aspects covered include the psychosocial differences in and how to approach children, family reunification, medications, supplies, and equipment, and decontamination. Given its breadth of coverage, the book is well suited as a textbook for nursing classes while also offering a valuable resource for nurses working in the field.
