**Remove. Replace. Restart** Christian Greiser, 2023-09-28 Have you ever had the feeling that you're treading water professionally that you're coming up against limits in terms of what you can achieve If so says Christian Greiser it might be high time to take some time out Careers progress through distinct phases we climb the career ladder we change direction or set up a business and eventually we retire As different as these phases are so too are the rules of success that govern them If we are to keep succeeding we must mentally shift gears and realign ourselves accordingly along the way We must take an honest and sometimes challenging look at our own character understanding the inner driving forces behind our previous successes questioning our patterns of behaviour and discarding the behaviours that no longer serve us In this way we can accomplish the transition to the next phase of our life and career and come back stronger than before Passionate career technician Christian Greiser is here to help us do just that In this humorously written new book he draws on insights from his many years of experience as an executive coach and incorporates research findings case studies and exercises to show how we can reset our mental attitude and achieve success and fulfilment in the next phase Autocar ,2004 **National**
