**Sport 2.0** Andy Miah, 2024-02-06 Ramifications of the convergence of sports and digital technology from athlete and spectator experience to the role of media innovation at the Olympics Digital technology is changing everything about modern sports Athletes and coaches rely on digital data to monitor and enhance performance Officials use tracking systems to augment their judgment in what is an increasingly superhuman field of play Spectators tune in to live sports through social media or even through virtual reality Audiences now act as citizen journalists whose collective shared data expands the places in which we consume sports news In Sport 2.0 Andy Miah examines the convergence of sports and digital cultures examining not only how it affects our participation in sport but also how it changes our experience of life online This convergence redefines how we think of about our bodies the social function of sports and the kinds of people who are playing Miah describes a world in which the rise of competitive computer game playing e sports challenges and invigorates the social mandate Miah also looks at the Olympic Games as an exemplar of digital innovation in sports and offers a detailed look at the social media footprint of the 2012 London Games discussing how organizers sponsors media and activists responded to the world's largest media event In the end Miah does not argue that physical activity will cease to be central to sports or that digital corporeality will replace the nondigital version Rather he provides a road map for how sports will become mixed reality experiences and abandon the duality of physical and digital

**Events, Society and Sustainability** Tomas Pernecky, Michael Lück, 2013-02-15 The growth of the events industry brings with it concerns of sustainable management the sharing of available resources and ensuring that people and places are not over exploited While the environmental and economic dimensions of sustainability have attracted a reasonable attention in the study of events the social and cultural aspects of sustainability have been largely neglected This book brings together emerging critical perspectives innovative conceptual frameworks and contemporary case studies Events cannot be isolated from the actions of humans and this is reflected in the emphasis on people and society throughout The next wave of sustainable discourse requires a critical synthesis of information and this book is the first to address the need for more critical approaches and a broader way of thinking about events and sustainability Divided into five thematic parts the contributions delve into understanding the mainstream stances towards sustainability the role events play in indigenous cultures and in diasporic communities and the extent to which events influence the public discourse and civic identity Sustainability is also examined from a strategic perspective in the events sector and consideration is given to issues such as

corporate social responsibility greenwashing and the power of multi stakeholder alliances in promoting sustainability goals  
Written by leading academics this timely and important volume will be valuable reading for all students researchers and academics interested in Events and the global issue of Sustainability
