Reginald, Robert

Reginald, 2009-11 Science Fiction Fantasy Book Review was founded in 1979 to provide comprehensive coverage of all the major and minor books being released in the genre at that time. This was the golden era of SF publishing with a thousand titles old and new hitting the stands and the bookshelves each and every year. From the older classics to the newest speculative fiction, this was the period when the best and the brightest shined forth their talents. SF FBR included reviews by writers in the field, by amateur critics and by literature professors. Over a thousand books were covered during the single year of publication, many of them having been reviewed nowhere else before or since. The January 1980 issue includes a comprehensive index of all the works featured during the preceding year. This reprint will be a welcome addition to the literature of science fiction and fantasy criticism. Neil Barron is a retired bibliographer and literary critic, editor of the acclaimed *Anatomy of Wonder* series. Robert Reginald was the publisher for twenty-five years of Borgo Press and has authored over 110 books of his own.

Key Issues in Sustainable Development and Learning William Scott, Stephen Gough, 2004. This book presents seminal readings from existing literature alongside specially commissioned critical vignettes from leading thinkers with interests in sustainable development and learning. The book sets out to inform readers about the many perspectives that exist and to challenge assumptions they may have about both sustainable development and learning. Through the readings and vignettes, the book raises wide-ranging issues of how we choose to act. Following the format of its companion volume *Sustainable Development and Learning*, framing the issues, the book builds on existing work across a number of fields as well as on original international research. *Key Issues in Sustainable Development and Learning* a critical review is a major resource for anyone studying for masters degrees focusing on environment and sustainable development. It is also a valuable tool for professionals in both public and private sector who are dealing with these issues daily. Bill and Steve's book for Routledge *Sustainable Development and Learning* framing the issues is one of the academic sources cited by the United Nations in its draft international implementation scheme for the Decade of Education for Sustainable Development which was launched by Kofi Annan last month.
