Multimodal Im/politeness Andreas H. Jucker,Iris Hübscher,Lucien Brown,2023-02-21 Politeness and impoliteness are not just expressed by words People communicate polite and impolite attitudes towards each other through their intonation tone of voice their facial expressions their gestures the positioning of their bodies towards each other and so on This volume brings together eleven empirical studies that investigate these various modalities of im politeness across signed spoken and written languages plus a detailed introductory chapter that establishes a framework for the multimodal investigation of im politeness The papers cover a range of languages and cultures including Swiss German Sign Language Catalan Sign Language English as a native language and as a lingua franca Korean Catalan Persian Japanese and Spanish Using a range of data sources and state of the art methodologies the papers reveal that these multimodal features are essential aspects of im politeness across different languages cultures and modes of interaction Put together the findings from these studies lay the groundwork for a new understanding of im politeness which is fundamentally multimodal

Visual language Wendy Sandler,Marianne Gullberg,Carol Padden,2019-11-04 Traditionally research on human language has taken speech and written language as the only domains of investigation However there is now a wealth of empirical studies documenting visual aspects of language ranging from rich studies of sign languages which are self contained visual language systems to the field of gesture studies which examines speech associated gestures facial expressions and other bodily movements related to communicative expressions But despite this large body of work sign language and gestures are rarely treated together in theoretical discussions This volume aims to remedy that by considering both types of visual language jointly in order to transcend artificial theoretical divides and to arrive at a comprehensive account of the human language faculty This collection seeks to pave the way for an inherently multimodal view of language in which visible actions of the body play a crucial role The 19 papers in this volume address four broad and overlapping topics 1 the multimodal nature of language 2 multimodal representation of meaning 3 multimodal and multichannel prosody and 4 acquisition and development of visual language in children and adults
