Future is Urban Utpal Sharma, Swati Kothary, Vibha Gajjar, 2024-06-07 Global concerns and local problems are increasing not only in urban areas but also in regions where the human impact is minimal. The global consequences of exploiting and irreversibly utilising natural resources are becoming evident. Climate change characterised by erratic weather patterns and global warming has become prevalent around the world. This has resulted in the increased occurrence of many calamities such as floods, droughts, heat waves and other related disasters. The efficacy of decision making processes determines the alternative methods for discovering solutions and ensuring readiness for future advancements. These kinds of difficulties require profound contemplation and reflection on concepts from multiple viewpoints and necessitate engaging discussions. By implementing nature based solutions, NBS and blue and green infrastructure, BGI, it is possible to mitigate their occurrences and address concerns.

Connecting People to Their Oceans: Issues and Options for Effective Ocean Literacy Angel Borja, Francesca Santoro, Gail Scowcroft, Stephen Fletcher, Pierre Strosser, 2020-03-25 While there is growing evidence of the importance of marine ecosystems for our societies, evidence shows also that pressures from human activities on these ecosystems are increasing, putting the health of marine ecosystems at stake worldwide. Hence Blue Economy is becoming an important component of future socio economic development strategies. e.g. this is called Blue Growth in Europe that eventually can result in increasing pressures at sea and despite the current regulatory framework in particular with the Oceans Act in USA or Canada and the Marine Strategy Framework Directive in Europe it is likely that this situation will continue in the future. Ensuring all those connected to the sea directly or indirectly gain a better understanding of the importance of the seas, the human sea interactions and opportunities to act better and reduce impacts from human pressures is central to Ocean Literacy. OL is receiving increasing attention in Europe and USA. OL is a challenge for all parts of society, educators, the role

OL could play in interaction with innovation regulation economic incentive social norms to support human capital development as key component of sustainable growth and 3 pre conditions for effective OL for different sectors and target groups Questions relevant to OL include Which knowledge produced by whom to share and how Who to target and how to effectively reach those targeted How to design OL initiatives including by mobilizing those targeted via living lab approaches e g to ensure effective OL and pave the way for behavior change What are the knowledge gaps that limit our capacity to design effective OL As scientists it is likely you have many more questions to offer and discuss **Higher Education**

Cognitive Diagnostic Models: Methods for Practical Applications Tao Xin, Chun Wang, Ping Chen, Liu Yanlou, 2022-05-06

Digital participation and communication disorders across the lifespan Petra Jaecks, Hendrike Frieg, Kristina Jonas, 2024-05-17 **Mapping actors along value chains** Stein, C., Barron, Jennie, 2017-12-12 Engagement with Culture in Transformative Times Susanne Janssen, Nete Kristensen, Marc Verboord, 2025-05-12 At the heart of this volume are the questions What does culture mean to European citizens in the face of globalisation digitalisation diversity and social inequality How do Europeans engage with culture in its various forms and what societal values are tied to this cultural engagement These questions are explored in depth across the 15 chapters of this book By delving into the understandings practices perceptions affordances and impacts of culture this book advances the study of the societal values of culture in contemporary European societies offering insights beneficial to both research and cultural policy work The book stands out with its five unique features It embraces an inclusive conception of culture spanning the arts popular culture and everyday cultural practices both offline and online It takes a grassroots approach starting from the cultural understandings and experiences of European citizens It employs a comparative method involving people from diverse socio economic groups in nine European countries with different cultural policy models social structural features socio cultural value orientations and media systems It builds on a multi and mixed methods approach including a large scale survey a smartphone study with experimental stimuli several phases of online content data collection and analysis qualitative interviews and focus groups

Finally it delves into how wide ranging and interconnected sociocultural transformations such as migration digitalisation and social inequality impact people's understanding of and engagement with culture as well as the meanings and values they attribute to culture. These unique features promise to offer a fresh and comprehensive perspective on cultural engagement in contemporary European societies. The collection showcases the multiple often contradictory concepts and understandings of culture and its societal values among social groups within and across European societies. The findings call for a social turn in cultural policy that extends beyond traditional arts and culture to support diverse cultural expressions that may enhance social values, address complex social issues and shift the focus from economic objectives to promoting civic solidarity, equity, inclusivity, tolerance and shared community values.

Mapping Identity-Induced Marginalisation in India Raosaheb K Kale, Sanghmitra S Acharya, 2022-08-17

This book discusses the issues of inequality and marginalization in India. The first section of the book contextualizes sociological traditions for the scrutiny of subaltern discourse on discrimination. The chapters in the section explore self-identity margins in sociological traditions, subalternity and exclusion, citizenship issues of denotified tribes, the role of religion for scheduled tribes, Dalits and Ambedkar's ideas on tribes. The second section deals with the political economy of higher education, health and employment. The efforts of B.R. Ambedkar and the consequences of those efforts, his critique of education policies during British time and its alteration for independent India have been meticulously dealt with. The third section illustrates an application of theoretical understanding through narratives of labour bondage in Varanasi sanitation workers in Mumbai and rickshaw pullers in Delhi. The last section establishes that unequal access to resources is a consequence of discrimination and marginalization induced by social identities. The book argues for equitable access to resources and opportunities to ensure health equity. The audience for this publication includes academics, researchers, health professionals, policymakers engaged with discrimination, exclusion, marginalization and inequity in health.

Coasts and Estuaries Eric Wolanski, John W. Day, Michael Elliott, Ramachandran Ramesh, 2019-01-24

Coasts and Estuaries: The Future provides valuable information on how we can protect and maintain natural ecological structures while also allowing estuaries to deliver services that produce societal goods and benefits. These issues are addressed through chapters detailing case studies from estuaries and coastal waters worldwide, presenting a full range of natural variability and human pressures. Following this, a series of chapters written by scientific leaders worldwide synthesizes the problems and offers solutions for specific issues graded within the framework of the socio-economic environmental mosaic. These include fisheries, climate change, coastal megacities, evolving human-nature interactions, remediation measures and integrated coastal management. The problems faced by half of the world living near coasts are truly a worldwide challenge as well as an opportunity for scientists to study commonalities and differences and provide solutions. This book is centered around the proposed DAPSI W R M framework.
