## **School Nurse Day Projects:**

**Wake Up Counselors!** William L. Fibkins, 2013-06-20 Providing individual and group counseling for secondary school students was once a major priority for secondary school counselors. However, many guidance programs have abandoned this role, and counselors have become quasi-administrators who spend most of their time scheduling students for classes, managing mandated testing programs, resolving discipline issues, and advising students on college admissions. Counseling students on personal and well-being issues takes up a very small part of the time. In many school districts, social workers, student assistance counselors, and school psychologists have taken over the counseling duties. Critical issues are now causing school leaders to consider reorganizing school guidance staff so there is a cadre of counselors trained and charged with the mission of providing individual and group counseling for troubled teens. First, the number of troubled teens arriving at the schoolhouse door looking for help has exploded. Second, budget cuts have eliminated or drastically curtailed many of the services of social workers, student assistance counselors, and psychologists. The result: Many once-open doors for help are now closed, and schools' counseling services are failing many students, parents, and educators in need of intervention. This book provides a new model in which well-trained counselors can once again regain their historic role in counseling troubled teens, parents, and training staff and students on the front lines to act, not look the other way, when they observe a student heading towards the margins of school life.

**Fed Up with Lunch: The School Lunch Project** Mrs. Q, 2011-08-26 When school teacher Mrs. Q forgot her lunch one day, she had no idea she was about to embark on an odyssey to uncover the truth about public school lunches. Shocked by what her students were served, she resolved to eat school lunch for an entire year, chronicling her experience anonymously on a blog that received thousands of hits daily and was lauded by such food activists as Mark Bittman, Jamie Oliver, and Marion Nestle. Here, Mrs. Q reveals her identity for the first time in an eye-opening account of school lunches in America. Along the way, she provides invaluable resources for parents and health advocates who wish to help reform school lunch, making this a must-read for anyone concerned about children's health issues.
