the way you're grouping kids is based on their wants and needs. Intermediate grade readers don't need to be guided as much as they need to be engaged, and authors Julie Wright and Barry Hoonan have solutions for doing just that using small groups. What Are You Grouping For offers the practical tools, classroom examples, and actionable steps essential for starting, sustaining, and mastering the management of small groups. This book explains the five teacher moves that work together to support students reading independently through small group learning: kidwatching, pivoting, assessing, curating, and planning, and provides examples to guide you and your students toward success. From must-have beginning of the year strategies to step-by-step advice for implementation, this guide breaks down the processes that support small groups and help create effective instructional reading programs. Based on more than 45 years of combined experience in the classroom, this resource will empower you with tools to ensure that your readers are doing the reading, thinking, and doing not you.
