Today Is Tomorrow M. Scott Norton, 2019-11-18 This book focuses on today s education relative to its effectiveness for preparing students for the future The matter of purposes for education today remains controversial in that future success looms important by a considerable portion of the citizenry while preparing for success in the future is of great importance for other individuals and groups The book considers both sides of the purpose question Predicting the needs for the future is a difficult matter at best

Enhancing Entrepreneurial Mindsets Through STEM Education Sila Kaya-Capocci, Erin Peters-Burton, 2023-01-01 Entrepreneurship is defined in different fields with definitions ranging from a specific perspective such as starting a business to a broader perspective such as a process of establishing new social economic environmental institutional cultural and or scientific environments There has been some movement toward entrepreneurship in STEM education through hackathons and makerspaces but they tend to be limited to informal settings In higher education there seems to be a border line between business schools and education departments This book aims to remove the borders between the Business Schools and the Department of Education and help Business Schools to develop their educational practices further and help Education Departments to develop their knowledge of entrepreneurship from its formal discipline The purpose of this book is to bring together experts from STEM education and the formal discipline of entrepreneurship to explore the role of STEM in everyday life through an entrepreneurial lens and show how this integration can broaden STEM education practices
