Legal Stories Gregory Steirer, 2024-07 Tracing the emergence of what the media industries today call transmedia story worlds and narrative franchises Legal Stories provides a dual history of copyright law and narrative based media development between the Copyright Act of 1909 and the Copyright Act of 1976 Drawing on archival material including legal case files and employing the principles of actor network theory Gregory Steirer demonstrates how the meaning and form of narrative based property in the twentieth century was integral to the letter and practice of intellectual property law during this time Steirer's expansive view of intellectual property law encompasses not only statutes and judicial opinions but also the everyday practices and productions of authors editors fans and other legal laypersons The result is a history of the law as

improvisatory and accident prone taking place as often outside the courtroom as inside and shaped as much by laypersons as lawyers Through the examination of influential legal disputes involving early properties such as Dashiell Hammett s Sam Spade H P Lovecraft s Cthulhu Mythos and Robert E Howard s Conan the Barbarian Steirer provides a ground s eye view of how copyright law has operated and evolved in practice

Tiny Publics Gary Alan Fine,2012-03-01 If all politics is local then so is almost everything else argues sociologist Gary Alan Fine We organize our lives by relying on those closest to us family members friends work colleagues team mates and other intimates to create meaning and order In this thoughtful and wide ranging book Fine argues that the basic building blocks of society itself are forged within the boundaries of such small groups the tiny publics necessary for a robust functioning social order at all levels Action meaning authority inequality organization and institutions all have their roots in small groups Yet for the past twenty five years social scientists have tended to ignore the power of groups in favor of an emphasis on organizations societies or individuals Based on over thirty five years of Fine s own ethnographic research across an array of small groups Tiny Publics presents a compelling new theory of the pivotal role of small groups in organizing social life No social system can thrive without flourishing small groups They provide havens in an impersonal world where faceless organizations become humanized Taking examples from such diverse worlds as Little League baseball teams restaurant workers high school debate teams weather forecasters and political volunteers Fine demonstrates how each group has its own unique culture or idioculture the system of knowledge beliefs behavior and customs that define and hold a group together With their dense network of relationships groups serve as important sources of social and cultural capital for their members The apparently innocuous jokes rituals and nicknames prevalent within Little League baseball teams help establish how teams function internally and how they compete with other teams Small groups also provide a platform for their members to engage in broader social discourse and a supportive environment to begin effecting change in larger institutions In his studies of mushroom collectors and high school debate teams Fine demonstrates the importance of stories that group members tell each other about their successes and frustrations in fostering a strong sense of social cohesion And Fine shows how the personal commitment political volunteers bring to their efforts is reinforced by the close knit nature of their work which in turn has the power to change larger groups and institutions In this way the actions and debates begun in small groups can eventually radiate outward to affect every level of society Fine convincingly demonstrates how small groups provide fertile ground for the seeds of civic engagement Outcomes often attributed to large scale social forces originate within such small scale domains Employing rich insights from both sociology and social psychology as well as vivid examples from a revealing array of real work groups Tiny Publics provides a compelling examination of the importance of small groups and of the rich vitality they bring to social life A Volume in the Russell Sage Foundation Series on Trust

Legend and

Belief Linda Dégh, 2001-11-14 Industrial advancement has not changed the basic fragility of human life and the commercialization and consumer orientation of the mass media has actually helped legends travel faster and farther. Legends are communicated not only orally face to face but also in the press on radio and television on countless Web sites and by e-mail perpetuating new waves of the culture of fear. **BOOK JACKET** The Routledge Handbook of Stylistics Michael Burke, 2023-05-29 This second edition of *The Routledge Handbook of Stylistics* provides a comprehensive introduction and reference point to key areas in the field of stylistics. Design for Partnerships for Change Sandi Hilal, Merve Bedir, Mette Ramsgaard Thomsen, Martin Tamke, 2023-09-27 Architecture has played a very important role in colonization of the society and the earth and today we have the urgent task to crack the theory and practice of this same Architecture. We can achieve this only by working collectively towards reframing concepts that have been at the centre of a dominant universalist western knowledge creation. Rethinking and reframing the ideals of community participation, commons, agency, design and land, this book puts forward a collective effort to shift the centre of architectural thinking and practice and create as many ways possible to understand our role as architects today. We acknowledge unrecognized practices by bringing back everyday life experiences, different paths and forms of knowledge production and storytelling that inform our understanding of architecture. The book is part of a series of six volumes that explore the agency of the built environment in relation to the SDGs through new research conducted by leading researchers. The series is led by editors Mette Ramsgaard Thomsen and Martin Tamke in collaboration with the theme editors: Design for Climate Adaptation Billie Faircloth and Maibritt Pedersen Zari; Design for Rethinking Resources Carlo Ratti and Mette Ramsgaard Thomsen; Eds Design for Resilient Communities Anna Rubbo and Juan Du; Eds Design for Health Arif Hasan and Christian Benimana; Eds Design for Inclusivity Magda Mostafa and Ruth Baumeister; Eds Design for Partnerships for Change Sandi Hilal and Merve Bedir. **Eds** **Higher Education for Good** Laura Czerniewicz, Catherine
