Thurlow,Adam Jaworski,2018-10-19 *Elite Discourse* examines how language and communication or just discourse define mediate and legitimize class privilege It does so from the perspective of those people and places who often stand to gain most from inequality Collectively chapters consider language and communication that is elitist in its appeal to distinction excellence and superiority they also describe the ways in which various groups and institutions lay claim to eliteness as a way to position themselves or to be positioned by others as elite or non elite As such chapters are concerned as much with discourse about elite status as they are with the discourse of elites those groups commonly defined by their material wealth political control or demographic rarity Ultimately *Elite Discourse* views elite as something we do rather than something we necessarily have or are Indeed elite status and eliteness point us to the rhetorical strategies by which many people differentiate themselves and by which they access symbolic material resources for shoring up their status privilege and power This book was originally published as a special issue of *Social Semiotics* **Theoretical Perspectives on Smell**

O'Mahony,Rahul K. Gairola,Melissa Merchant,Simon Order,2023-07-31 This innovative volume compels readers to re think the notions of performance performing and non performativity in the context of the COVID 19 global pandemic Given these multi faceted ways of thinking about performance and its complicated manifestations throughout the pandemic this volume is organised into umbrella topics that focus on three of the most important aspects of identity for cultural and intercultural studies in this historical moment language race gender sexuality and the digital world In critically re thinking the meaning of

performance in the era of COVID 19 contributors first explore how language is differently staged in the context of the global pandemic compelling us to normalise an entirely new verbal lexicon Second they survey the pandemic s disturbing impact on socio political identities rooted in race class gender and sexuality Third contributors examine how the digital milieu compels us to reorient the inside outside binary with respect to multilingual subjects those living with disability those delivering staged performances and even corresponding audiences Together these diverse voices constitute a powerful chorus that rigorously excavates the hidden impacts of the global pandemic on how we have changed the ways in which we perform identity throughout a viral crisis This volume is thus a timely asset for all readers interested in identity studies performance studies digital and technology studies language studies global studies and COVID 19 studies It was originally published as a special issue of the Journal of Intercultural Studies
