

Static Routing Lab

Campus Network Design & Operations Workshop

Introduction

The purpose of this lab is to make add Layer 3 functionality to our existing Routed Layer 2 network. The Core Routers have ports 1/1 connected right into the 10.10.10.0/24 routing domain, that difference is that configured now it is broadcast, and now we'll give this campus connectivity to the border router and onwards to the RTRs and the Internet.

The class will continue in the 15 groups with each group being assigned some campus to configure, potentially will have to be trained for configuring routing for the border router and next router (which we have some settings available up to now).

Lab Layout

The following diagram shows the layout of the devices and all the links for each campus.

Routing Lab Study Guide Instructor Version

Emilie Sanchez

Routing Lab Study Guide Instructor Version:

Routers and Routing Basics Allan Johnson, 2007 The only authorized Labs and Study Guide for the Cisco Networking Academy Program Routers and Routing Basics CCNA 2 Labs and Study Guide supplements version 3 1 1 of the Cisco Networking Academy registered Program CCNA registered 2 course This Guide maximizes your understanding of configuring a router managing Cisco IOS registered Software selecting a routing protocol verifying and troubleshooting a network and implementing basic security with access control lists Each chapter contains a Study Guide section and a Lab Exercises section Keep all your completed work on hand in this book to study from later or take advantage of the perforated pages to tear out and hand in specific material for homework assignments Over 200 exercises in this book help you learn the concepts and configurations crucial to your success as a CCNA exam candidate Each chapter is slightly different and includes some or all the following types of exercises vocabulary matching and completion skill building activities and scenarios configuration scenarios concept questions journal entries and internet research you review all the commands covered in the chapter The book includes all 55 labs from the online course with an additional 15 labs in which you can apply your knowledge about the technologies and concepts introduced You will get ample opportunity for hands on practice in three different types of labs Curriculum Labs are step by step exercises designed to introduce you to new concepts Presenting you with detailed instructions and sometimes additional explanations for completing the lab Curriculum Labs come directly from the CCNA 2 online course Comprehensive Labs combine the concepts learned from the course and Curriculum Labs into new experiments These Exercises provide minimal guidance You are encouraged to complete the Curriculum Labs before moving on to a Comprehensive Lab and Challenge Labs are unique labs requiring a thorough understanding of the previously learned network concepts You should complete all Curriculum Labs and Comprehensive Labs before attempting a Challenge Lab Additionally the appendix includes a CCNA 2 Skills Based Assessment practice lab be well prepared to continue your networking education in the CCNA courses that follow Use this book with *Routers and Routing Basics CCNA 2 Companion Guide* ISBN 1 58713 166 8 Allan Johnson is an information technology instructor at Mary Carroll High School and Del Mar College in Corpus Christi Texas Since 2003 Allan has committed much of his time and energy to the CCNA Instructional Support team creating training materials and providing services for instructors worldwide He is a familiar voice on the Cisco Networking Academy Community forum Ask the Experts series This book is part of the Cisco Networking Academy Program series from Cisco Press registered The products in this series support and complement the Cisco Networking Academy Program online curriculum *Cti Higher Edn* Cengage Learning Australia, Thomson Course Technology, 2001-12

Routing and Switching Essentials v6 Companion Guide Cisco Networking Academy, 2016-12-01 This is the eBook of the printed book and may not include any media website access codes or print supplements that may come packaged with the bound book *Routing and Switching Essentials v6 Companion Guide* *Routing and Switching Essentials v6 Companion*

Guide is the official supplemental textbook for the Routing and Switching Essentials course in the Cisco Networking Academy CCNA Routing and Switching curriculum This course describes the architecture components and operations of routers and switches in a small network The Companion Guide is designed as a portable desk reference to use anytime anywhere to reinforce the material from the course and organize your time The book s features help you focus on important concepts to succeed in this course Chapter Objectives Review core concepts by answering the focus questions listed at the beginning of each chapter Key Terms Refer to the lists of networking vocabulary introduced and highlighted in context in each chapter Glossary Consult the comprehensive Glossary with more than 250 terms Summary of Activities and Labs Maximize your study time with this complete list of all associated practice exercises at the end of each chapter Check Your Understanding Evaluate your readiness with the end ofchapter questions that match the style of questions you see in the online course quizzes The answer key explains each answer How To Look for this icon to study the steps you need to learn to perform certain tasks Interactive Activities Reinforce your understanding of topics with dozens of exercises from the online course identified throughout the book with this icon Packet Tracer Activities Explore and visualize networking concepts using Packet Tracer exercises interspersed throughout the chapters and provided in the accompanying Labs Study Guide book Videos Watch the videos embedded within the online course Hands on Labs Work through all the course labs and additional Class Activities that are included in the course and published in the separate Labs Study Guide This book is part of the Cisco Networking Academy Series from Cisco Press Books in this series support and complement the Cisco Networking Academy curriculum
