

ORACLE® PRIMAVERA® P6

VERSION 8, 15 and 16 EPPM Web Administrators Guide

The book is packed with screen shots, constructive tips and contains workshops with solutions at the end of each chapter for the reader to practice their skills.

ABOUT THE AUTHOR:

Paul Harris holds an Honours Degree in Civil Engineering obtained in the UK, and is a Certified Cost Engineer through AACSB International, a PMBOK® Registered Practitioner, an Approved Primavera® Trainer and a "Managing Successful Programmes" Registered Practitioner. He has worked in the project controls industry for a number of years and has assisted many companies in a range of industries to set up and run project controls systems. His Melbourne, Australia based company, Eastwood Harris Pty Ltd, offers project controls consulting and training services world wide with a strong focus on Microsoft Project and Primavera software.

ABOUT THIS BOOK

This book is aimed at existing database administrators to understand how to configure and administer a P6 database after the software and database have been installed.

The objectives of this book are to demonstrate:

- The structure of a P6 database,
- The P6 tools available to access, set up and administer a P6 Database,
- The steps that should be considered when implementing a P6 database,
- The P6 functions that an Administrator must understand in order to successfully administer a P6 EPPM database,
- How to set up/configure a P6 Database using the Web interface, and
- How to administer a P6 Database using the Web interface.

The book is aimed at:

- People who wish to run the software but are unable to attend a training course and find the software reference manual hard going,
- Project management companies who wish to run their own software training courses or provide their employees with an alternative text to the vendor supplied user manual,
- Training organisations requiring a training manual to run their own training courses.

This book will be a PPM Approved course and an instruction PowerPoint slide show will be available to training organisations and companies to run their own course. PPM/EPs may apply to have this course loaned to them and award 16 PDUs to each attendee.

Primavera Systems Inc. originally asked the author to write the book and this publication is ideal for people who would like to gain an understanding of how the software operates up to an intermediate level.

In Primavera Primavera's versions 8 and 15 EPPM Web included the book is designed to show administrators in any industry how to setup an EPPM database. It explains in plain English and in a logical sequence, the steps required to create and maintain an EPPM database. It tackles some of the more complex aspects of the software that the user manual does not address.

The book is intended to be used:

- As a self-study book, or
- A user guide, or
- A training manual for a one day training course.

This book is written by an experienced scheduler, who has used the software at the sharp end of projects and is not a text. It draws on the author's practical experience in using the software in a wide variety of industries.

REVIEWS

The Oracle Primavera P6 Version EPPM Web Administrators Guide continues to complement the already impressive collection of project management concepts and software training manual written by Paul Harris.

The Oracle Primavera EPPM Administrator manual competently covers the configuration and administration settings required to create and maintain the database. The topics covered in the book are supported by the inclusion of training exercises, which can be undertaken at self pace or delivered in a classroom environment.

Pauls extensive experience as a project controls professional is reflected in the content of the book, with informative tips on the practical application of the software incorporated within the book's content. The extent of the material covered ensures that the book will continue to serve as useful reference guide once the initial exercises have been completed.

I recommend Paul's latest book to anyone who wants to enhance their knowledge and understanding of the Primavera P6 application. The presence of Pauls books in many organisations tasked with successful project delivery is a testimony to their value to the project management practitioners and community.

The P6 Administrator Guide by Paul Harris is an impressive tour de force into the concepts and functionality of P6 administration. The guide contains 17 chapters of essential information that P6 users will require to get the most out of a complex scheduling tool.

The task of setting up P6 in a new environment is a considerable challenge and there are many pitfalls to be avoided. Paul's guide takes a logical path through the many intricacies of P6 administration and helps the user by providing a series of workshops that demonstrate the functionality in a clear manner.

I have been teaching Primavera scheduling to a wide a wide range of industries for over 10 years and I believe that Paul's training material offers the best combination of functional and practical training, delivered in a style that is easy to comprehend.
