Preparing for Your ACS Examination in Organic Chemistry I. Dwaine Eubanks, 2002

Organic Chemistry Education Research into Practice Jay Wackerly, Sarah Zingales, Michael Wentzel, Gautam Bhattacharyya, Brett McCollum, 2025-03-25

This Research Topic has three main goals 1 provide a platform for instructors of organic chemistry to showcase evidence based methods and educational theories they have utilized in their classrooms 2 build new and strengthen existing connections between educational researchers and practitioners and 3 highlight how people have used chemical education based research in their teaching practice There are places in the literature dedicated for chemical education research CER however there is not a clear avenue for those that have changed their teaching methods based on published CER and report their experiences Creating this article collection will foster collaboration between chemical education researchers and teachers of organic chemistry This opportunity allows these instructors to share evidence based practices experiences challenges and innovative approaches from CER literature and beyond This Research Topic bridges discipline based education research and the scholarship of teaching and learning which will help advance organic chemistry education and improve student outcomes

Organic Chemistry, Fourth Edition K. Peter C. Vollhardt, Neil E. Schore, 2003 New edition of the acclaimed organic chemistry text that brings exceptional clarity and coherence to the course by focusing on the relationship between structure and function

Student Reasoning in Organic Chemistry Nicole Graulich, Ginger Shultz, 2022-12-21 Reasoning about structure reactivity and chemical processes is a key competence in chemistry Especially in organic chemistry students experience difficulty appropriately interpreting organic representations and reasoning about the underlying causality of organic mechanisms As organic chemistry is often a bottleneck for students success in their career compiling and distilling the insights from recent research in the field will help inform future instruction and the empowerment of chemistry students worldwide This book brings together leading research groups to highlight recent advances in chemistry education research with a focus on the characterization of students reasoning and their representational competencies as well as the impact of instructional and assessment practices in organic chemistry Written by leaders in the field this title is ideal for chemistry education researchers instructors and practitioners and graduate students in chemistry education
