Ebook: Organic Chemistry Janice Smith, 2014-10-16 Serious Science with an Approach Built for Today's Students
Smith's Organic Chemistry continues to breathe new life into the organic chemistry world. This new fourth edition retains its popular delivery of organic chemistry content in a student-friendly format. Janice Smith draws on her extensive teaching background to deliver organic chemistry in a way in which students learn with limited use of text paragraphs and through concisely written bulleted lists and highly detailed well-labeled teaching illustrations. Don't make your text decision without seeing Organic Chemistry 4th edition by Janice Gorzynski Smith. **Communicate** Janice A. Smith, Colleen M. Meyers, Amy J. Burkhalter, 2007-07-13 Written for all types of ITA programs: an independent study course, a brief workshop, or extensive training. This versatile text provides essential information for ITAs to develop strong teaching skills that ensure effective communication in the undergraduate classroom. The authors take the perspective that incoming ITAs are responsible for their own learning and teaching style. Each of the text's ten units includes work on English proficiency, teaching skills, and cultural awareness. Each unit centers around a common rhetorical teaching task in U.S. university classrooms: introducing oneself, introducing a syllabus, explaining a visual, defining a term, teaching a process, fielding questions, explaining complex topics at a basic level, presenting information over several class periods, and leading a discussion. Undergraduate textbook materials for fifteen academic fields are included in the appendix to provide ITAs with content relevant for practicing teaching and language skills. Because ITA programs vary in structure and number of training hours, the authors include a To the Instructor section which is full of recommendations for the many ways the text can be used. **Comprehensive Dissertation Index, 1861-1972: Chemistry** Xerox University Microfilms, 1973 *Faculties, Publications, and Doctoral Theses in Chemistry and Chemical Engineering at United States Universities* American Chemical Society.
