Personal Essay Markets 2013:

A Monetary and Fiscal History of the United States, 1961-2021 Alan S. Blinder, 2024-04-16 In this book the author one of the world's most influential economists draws on his deep firsthand experience to provide an authoritative account of sixty years of monetary and fiscal policy in the United States Spanning twelve presidents from John F Kennedy to Joe Biden and eight Federal Reserve chairs from William McChesney Martin to Jerome Powell this is an insider's story of macroeconomic policy that hasn't been told before one that is as interesting as it is important Focusing on the most significant developments and long term changes the author traces the highs and lows of monetary and fiscal policy which have by turns cooperated and clashed through many recessions and several long booms over the past six decades From the fiscal policy of Kennedy's New Frontier to Biden's responses to the pandemic the book takes readers through the stagflation of the 1970s the conquest of inflation under Jimmy Carter and Paul Volcker the rise of Reaganomics and the bubbles of the 2000s before bringing the story up through more recent events including the financial crisis the Great Recession and monetary policy during COVID 19 This book is filled with vital lessons for anyone who wants to better understand where the economy has been and where it might be headed

The New Political Economy of Disability Georgia van Toorn, 2021-02-22 This book addresses the ways in which individualised market based models of disability support provision have been mobilised in and across different countries through cross national investigation of individualised funding IF as an object of neoliberal policy mobility Combining rich theoretical and interdisciplinary perspectives with extensive empirical research the book provides a timely examination of the policy processes and mechanisms driving the spread of IF amongst countries at the forefront of disability policy reform It is argued that IF's mobility is not attributable to neoliberalism alone but to the complex intersections between neoliberal and emancipatory agendas and to the transnational networks that have blended the two agendas in new ways in different institutional contexts The book shows how disability rights struggles have synchronised with neoliberal agendas which explains IF's propensity to move and mutate between different jurisdictions Featuring first hand accounts of the activists and advocates engaged in these struggles the book illuminates the consequences and risks of the dangerous liaisons and political trade offs that seemed necessary to get individualised funding on the policy agenda for disabled people It will be of interest to all scholars and students working in disability studies social policy sociology and political science more generally

on Supply Chain Management in Emerging Markets Micha Hirschinger,2015-11-17 Micha Hirschinger emphasizes the importance of foresight on logistics and institutions in particular for effective decision making as distinct research in this context is limited He applies a systematic and transferable multi method approach based on Delphi studies and fuzzy c means cluster analysis to develop profound scenarios for the future He uses the relevance of information processing requirements to investigate whether centralization of purchasing organizations increases functional efficiency The author finally shows how a sharing economy business model transfer could help to overcome the limited access to factor markets especially trucks at the base of the pyramid *Personal Data in Competition, Consumer Protection and Intellectual Property Law* Mor

Bakhoun,Beatriz Conde Gallego,Mark-Oliver Mackenrodt,Gintarė Surblytė-Namavičienė,2018-11-02 This book analyses the legal approach to personal data taken by different fields of law An increasing number of business models in the digital economy rely on personal data as a key input In exchange for sharing their data online users benefit from personalized and innovative services But companies collection and use of personal data raise questions about privacy and fundamental rights Moreover given the substantial commercial and strategic value of personal data their accumulation control and use may raise competition concerns and negatively affect consumers To establish a legal framework that ensures an adequate level of protection of personal data while at the same time providing an open and level playing field for businesses to develop innovative data based services is a challenging task With this objective in mind and against the background of the uniform

rules set by the EU General Data Protection Regulation the contributions to this book examine the significance and legal treatment of personal data in competition law consumer protection law general civil law and intellectual property law Instead of providing an isolated analysis of the different areas of law the book focuses on both synergies and tensions between the different legal fields exploring potential ways to develop an integrated legal approach to personal data

Thinking Ahead - Essays on Big Data, Digital Revolution, and Participatory Market Society Dirk Helbing, 2015-04-10

The rapidly progressing digital revolution is now touching the foundations of the governance of societal structures Humans are on the verge of evolving from consumers to prosumers and old entrenched theories in particular sociological and economic ones are falling prey to these rapid developments The original assumptions on which they are based are being questioned Each year we produce as much data as in the entire human history can we possibly create a global crystal ball to predict our future and to optimally govern our world Do we need wide scale surveillance to understand and manage the increasingly complex systems we are constructing or would bottom up approaches such as self regulating systems be a better solution to creating a more innovative more successful more resilient and ultimately happier society Working at the interface of complexity theory quantitative sociology and Big Data driven risk and knowledge management the author advocates the establishment of new participatory systems in our digital society to enhance coordination reduce conflict and above all reduce the tragedies of the commons resulting from the methods now used in political economic and management decision making The author Physicist Dirk Helbing is Professor of Computational Social Science at the Department of Humanities Social and Political Sciences and an affiliate of the Computer Science Department at ETH Zurich as well as co founder of ETH s Risk Center He is internationally known for the scientific coordination of the FuturICT Initiative which focuses on using smart data to understand techno socio economic systems Prof Helbing has produced an insightful and important set of essays on the ways in which big data and complexity science are changing our understanding of ourselves and our society and potentially allowing us to manage our societies much better than we are currently able to do Of special note are the essays that touch on the promises of big data along with the dangers this is material that we should all become familiar with Alex Pentland MIT author of Social Physics How Good Ideas Spread The Lessons From a New Science Dirk Helbing has established his reputation as one of the leading scientific thinkers on the dramatic impacts of the digital revolution on our society and economy Thinking Ahead is a most stimulating and provocative set of essays which deserves a wide audience Paul Ormerod economist and author of Butterfly Economics and Why Most Things Fail It is becoming increasingly clear that many of our institutions and social structures are in a bad way and urgently need fixing Financial crises international conflicts civil wars and terrorism inaction on climate change problems of poverty widening economic inequality health epidemics pollution and threats to digital privacy and identity are just some of the major challenges that we confront in the twenty first century These issues demand new and bold thinking and that is what Dirk Helbing offers in this collection of essays If even a fraction of

these ideas pay off the consequences for global governance could be significant So this is a must read book for anyone concerned about the future Philip Ball science writer and author of Critical Mass This collection of papers brought together by Dirk Helbing is both timely and topical It raises concerns about Big Data which are truly frightening and disconcerting that we do need to be aware of while at the same time offering some hope that the technology which has created the previously unthought of dangers to our privacy safety and democracy can be the means to address these dangers by enabling social economic and political participation and coordination not possible in the past It makes for compelling reading and I hope for timely action Eve Mitleton Kelly LSE author of Corporate Governance and Complexity Theory and editor of Co evolution of Intelligent Socio technical Systems

The Routledge Companion to the History of Retailing Jon Stobart, Vicki Howard, 2018-11-08 Retail history is a rich cross disciplinary field that demonstrates the centrality of retailing to many aspects of human experience from the provisioning of everyday goods to the shaping of urban environments from earning a living to the construction of identity Over the last few decades interest in the history of retail has increased greatly spanning centuries extending to all areas of the globe and drawing on a range of disciplinary perspectives By offering an up to date comprehensive thematic spatial and chronological coverage of the history of retailing this Companion goes beyond traditional narratives that are too simplistic and Euro centric and offers a vibrant survey of this field It is divided into four broad sections 1 Contexts 2 Spaces and places 3 People processes and practices and 4 Geographical variations Chapters are written in an analytical and synthetic manner accessible to the general reader as well as challenging for specialists and with an international perspective This volume is an important resource to a wide range of readers including marketing and management specialists historians geographers economists sociologists and urban planners
