

## **STUDENT RECOMMENDATION LETTER**

December XX, 20XX

To the Review Committee:

I am pleased to write a letter of recommendation for Janet Lerner, an honors undergraduate student in our program. I have known Janet for more than two years. I came to know her very well when she was a student in my economic geography course. This summer, I hired her to work on an NSF-sponsored research project on Human Dimensions of Global Environmental Change.

Janet is an undergraduate student in the honors program at Mythic University. The honors program is designed to provide the educational experience of a small Ivy League college within a large public university.

Her performance exceeded that of the incoming graduate students, including an NSF fellowship recipient. She always came to class prepared and was clearly far above her peers in understanding and appreciating the course material. I have been especially impressed by Janet's determination and sparkle.

I know from discussions with colleagues and graduate students in my department that we all think Janet is a very special student. She will be a dedicated student and a competent professional. I recommend her very highly and without reservation.

Sincerely,

Janet Teacher  
Janet Teacher Professor of Geography

**Lessons in Leadership in the Field of Educational Technology** Christopher T. Miller, Anthony A. Piña, 2019-11-21  
The idea for this edited book came about due to the increased discussion and focus on leadership within the educational technology field and particularly in the Association for Educational Communications and Technology organization. There is a diverse amount of individuals in leadership in the field that contributed their lessons learned. This book focuses on sharing the lessons learned by leaders in the field on how they became a leader and what leadership means. The primary contributions address three central questions: What is your story about how you became a leader? What lessons have you learned about being an effective leader? What advice would you give others to become a leader? In addition, this book spotlights the impact that past leaders have had on current leaders and upon the field of educational technology. *Equal Educational Opportunities Act: July 25, 26, 28, 31, and August 1, 1972* United States. A Woman in a Man's World Norma L. Winter, 2008-03-02. In 1977, when author Dr. Norma L. Winter overcame the adversities of her youth and became the only female high school principal in the state of West Virginia, less than three percent of the school administrators in the United States were women. In *A Woman in a Man's World*, she shares her professional journey into school administration during a time when gender differences among administrators were obvious and roadblocks to success were copious. In this memoir, Winter describes a personal and inspirational triumph over hardship and includes meaningful contributions to the study of contrasts between the careers of male and female school administrators. She tells a story about her nontraditional and unconventional life in which she beat the odds both personally and professionally. In the end, she reflects she may have been happiest when she was a woman in a man's world. Praise for *A Woman in a Man's World*: Winters' book is an inspirational resource.
